Collected papers on Denmark. 21st International Geographical Congress Volume, pp. 143-156.

74 Kakkar, S.L. and Others (1961): Report to the Government of India on the reclamation of Chambal ravines.

Indian Forester, Vol. 89: P. 194.

Ernold E. London.

Oliver and Boyd Co. Ltd., Edinburgh and London.

Department of Agricultural Chemistry, Udaipur.

100 Melton, M.A. (1957): Geometric properties of mature drainage system and their representation in on E4 phase space.

102 Mishra, R.C. (1969): The Vindhyan system

National Book Trust, New Delhi.

109 Peel, R.F. (1960): Some aspects of desert geomorphology

Faber and Faber Company, London.

112 Peterson, H.V. (1950): The problem of gullying in Western Valleys.

Proceedings of Geomorphological Studies in India, University of Saugor. PP. 4-14.

Geography, Vol. 25: pp. 6-17.

118 Rizvi, S.M.T. (1941): Conservation of India's natural resources.

Indian Council of Agricultural Research, 1st edition, New Delhi.

127 Schumm, S.A. (1956): The role of creep and rainwash on the retreat of badland slopes.

Paper Presented in the 21st International Geographical Symposium of Landuse in the developing countries. Aligarh Muslim University.

133 Shafi, M. (1968): The problems of wastelands in India.

Metheun, London.

140 Spate, O.H.K. (1952): Geomorphological problems in India—a plea for their intensive study.

Longmans Ltd. London.

A Pelican Original.

147 Strahler, A.N. (1952 b): Hyperometric (Area and Attitude) analysis of erosional topography.

Seminar Soil Conservation, New Delhi.

Prentice Hall India Ptd., New Delhi.

162 Vaidyanadhan, R. (1962): Effects of uplift and structure on drainage in the southern part of Cuddapah basin.

169 Wadia, D.N. (1938): The structure of the Himalayas and of north Indian foreland.

170 Wadia, D.N. (1952): The geology of India, 3rd Edition.

175 Zakrzewska, B. (1963): An analysis of landforms in a part of the central Great Plains.

176 Climatological tables (1942): Meteorological Department, New Delhi.

181 Soil Classification - Comprehensive System - 7th approximation.

United States Department of Agriculture.
