CONTENTS

CHAPTER I
GEOLGY AND RELIEF OF BUNDELKHAND

A. Geology of Bundelkhand

Archaean system - Origin of Massif Bundelkhand, Texture and Composition of Regional Granites, Distribution of Granites and Gneisses; Transitional System; Vindhyan System - Kaimur, Rewa Series, Bhandara Series; Recent Deposits; Economic Geology; Mineral Wealth of Bundelkhand - Diamonds, Building Stones, Iron Ore, Other minerals.

B. Topography of Bundelkhand

General Remarks: Physiographic Divisions - Pawai Plateau, Basin of River Sonar and Mirhasan, The Highlands of Binchacha, and Panna Ranges; South Central Lowland of Granites and Gneisses - Boulders, Quartz Reefs and Dykes; Northern Lowland.

CHAPTER II
CLIMATE OF BUNDELKHAND.

Climatic Considerations in Agriculture - Temperature, Precipitation and Humidity, Cloudiness and Sunshine, Pressure and Winds; Analysis of Regional Weather and Climate; Variability of Rain; Precipitation Effectiveness; Intensity of Rainfall; Rainy days; Characteristics of Rainfall in Bundelkhand; Seasonal Rhythm - Summer season conditions, Rainy Season, Winter Season; Conclusion.

CHAPTER III
HYDROGRAPHY OF BUNDELKHAND IN RELATION TO AGRICULTURE.

Hydrographic Consideration in Agriculture; Hydrologic Cycle in Bundelkhand - Evaporation, Run-off and Percolation.

A. Under-ground Water

Water-table; Movement of Under-ground Water.

B. Surface Water

Rivers and Streams of Bundelkhand - River Yamuna, River Sind, River Pahuj, River Betwa, River Dhasan.

J. P. Saxena
CHAPTER IV

NATURAL VEGETATION AND CATTLE-WEALTH OF BUNDELKHAND

A. Forests: Their Importance, Distribution and Kinds

Distribution of Forests; Classification of Forests; Scrubs and Grasses - Musels, Ukra, Gunar, Karta, Marona, Pasai, Auria, Gurgoya, Dub, Kans, Dabhi, Gander; Policy in regard to Grazing in the Forests; Fauna.

B. Cattle-wealth of Bundelkhand

Live-stock - working Cattle; Improvement of Bundelkhand Live-stock - Cows; Buffaloes, Sheep and Goats; Animal Diseases.

CHAPTER V

SOILS OF BUNDELKHAND

Pedological Considerations in Agriculture; Origin of Soils; Characteristics of a Good Soil; Soil Physics; Soil Chemistry; Soil Biology; Classification of Bundelkhand Soils - Upland Soils, Lowland Soils; Distribution of Soils; A New Classification of Bundelkhand Soils; Soil Profiles; Problem of Soil Erosion.

CHAPTER VI

PEOPLE AND THEIR SOCIETY IN BUNDELKHAND

Introduction.

A. Population of Bundelkhand

Growth of Population; Effects of Population Growth in Bundelkhand; Distribution of Population in Bundelkhand; Density of Population in Bundelkhand; Causes of High and Low Densities; Composition and Character of Bundelkhand Population.
B. Settlements
Houses; Villages; Urbanisation & Urban Centres; Agrarian Society.

CHAPTER VII
PATTERN OF LAND UTILIZATION IN BUNDELKHAND

Introduction; General Pattern of Existing Land-use in Bundelkhand; Geographical Area of Bundelkhand; Area under Forests; Land Not Available for Cultivation; Other Uncultivated Lands ex. fallow lands; Fallow Lands; Net Area Sown; Area Sown More Than Once; Total Cropped Area; Summary of Land Utilization in Bundelkhand

CHAPTER VIII
BUNDELKHAND AGRICULTURE - A HISTORICAL BACKGROUND

Ancient Period; Moghal Period; British Period; Independence and After (Abolition of Intermediaries, Tenancy Reforms, Fixation of Ceiling on Holdings, Consolidation of Holdings, Community Development Projects)

CHAPTER IX
CROP FARMING & CROP COMBINATION REGIONS IN BUNDELKHAND

A. Crop Farming
General Characteristics of Bundelkhand Agriculture, Harvesting and Agricultural Calender; Agricultural Landuse; Distribution of Principal Crops - Wheat, Rice, Barley, Jowar and Bajra, Mixed Crops, Pulses, Vegetables and Fruits, Oil-seeds, Fibre Crops, Sugar cane; Agricultural Efficiency; Crop-intensity; Crop Diversification

B. Crop-Combination Regions
South-Eastern Region of Rice Culture - Rice-Gram-Wheat sub-region of high cropping intensity, Gram-Wheat Barley-Jowar sub-region of high relief, Wheat-Rice-Oil-seed sub-region, Eastern Gram-Jowar-Arhar sub-region.

CHAPTER X
TYPE STUDY OF VILLAGES AND THEIR AGRICULTURE

Introduction; General Introduction of the Villages; Summary of Village Reports - Land utilization, Soils, Agricultural Seasons, Important Crops, Size of Land Holdings, Types of Fields; Crop Rotation, Mixed Sowing; Agricultural Labour; Madhoganj; -- Chakhberkhari; Malhera; Bijoli; Barhai; Uncho.

CHAPTER XI
FLOODS AND FAMINES

A. Floods
Geographical Causes of Floods - Relief as a Cause of Floods, Distribution of Rainfall as a Cause of Floods, Structural Bottle-necks as a cause of floods, Pattern of Confluence as a cause of Floods, Meandering as a Cause of Floods; Failure of Reservoirs as a cause of Floods; Deforestation & Soil Erosion as Causes of Floods; Estimates of Flood Flows; Measures of Flood Control - Flood Control Measures in Lower Mississippi

B. Famines
Causes of Bundelkhand Droughts and Famines; Famine of 1833-34; Famine of 1937-39; Famine of 1868-69; Famine of 1877-78; Famine of 1895-97; Famine of 1905-09; British Policy on Famines.

CHAPTER XII
IRRIGATION AND AGRICULTURAL IMPROVEMENT IN BUNDELKHAND

Brief History of Irrigation in Bundelkhand - Early Protective Works & Financial Policy of British Govt.; Independence and After; Source of Irrigation - Progress of Irrigation; Wells, Tanks, Canal Irrigation, Other Sources; Water Requirement of Some Crops - Rice, Wheat, Sugarcane, Cotton; Economics of Irrigation

J. P. Sarera
CHAPTER XIII

OTHER AGRICULTURAL PROBLEMS AND THEIR SOLUTIONS

Problems of Soils in Bundelkhand - Soil Conservation
Work in USSR & Japan; General Principle of Soil
Erosion Control; Experiments in Yamuna-Chambal
Ravines, Bunding, Problem of Soil Depletion; Problem
of Weeds and Their Solutions - Kans and the Problem
of its Eradication, Solutions; Sub-division and
Fragmentation of Holdings - Causes of sub-division
and Fragmentation, Evils of Fragmentation, Solutions;
Problem of Agricultural Indebtedness - Causes of
Indebtedness, Solutions; Problem of Improvement and
Distribution of Seeds - Necessity for Introducing
Improved Varieties of Seeds, Solutions; Problem
of Agricultural Marketing.

CHAPTER XIV

CONCLUSION; AGRICULTURAL PLANNING & PROSPECTS

A. Condition of Agriculture & Problems thereof

Southern Region of Plateau Agriculture;
Problems; Central Region of Diversified
Farming, Problems; North-West Region of
Irrigation Farming, Problems; Wet Farming
Region of Eastern Plain, Problems.

B. Regional Self-Sufficiency in Food

Balanced Diet; Food Planning in Bundelkhand;
Health

C. Steps for Increasing Agricultural Production

Conclusion.

APPENDIX

BIBLIOGRAPHY
