Acknowledgement

It is a matter of immense pleasure for me to submit my Ph. D. thesis entitled “SOME NEW ASPECTS OF GRAPH THEORY” in the subject of Mathematics.

First and foremost, I pay my sincere ‘PRANAM’ to almighty for showering his choicest blessings on me.

My registration was done in the year 2012 for carrying out the work related to the subject. It was indeed a herculean task but with the passing of time, everything seemed to be within the reach by grace of god.

I would like to offer my sincere gratitude to my guide and advisor Dr. S. K. Vaidya, Professor, Department of Mathematics, Saurashtra University - Rajkot, for his constant support throughout my research career. I thank him for his patience, motivation, methodology, meticulous way of working, use of ICT tools in research work and the deep knowledge of subject. I am greatly obliged to have such a guide and mentor for my Ph.D. study.

I thank my fellow researchers at Saurashtra University Dr. P. L. Vihol, Dr. N. B. Vyas, Dr. D. D. Bantva, Dr. N. H. Shah, N. J. Kothari, R. M. Pandit, M. S. Shukla, Rakhimol Isaac, R. N. Mehta and S. H. Karkar for their interactions and brainstorming discussions as well as providing support and encouragement.

I would like to thank P. P. Tyagvallabh Swamiji (Honorable Secretary, Sarvoday Kelavani Samaj - Rajkot) whose blessings and best wishes were always with me in this academic endeavour. I also take this opportunity to thank Dr. G. D. Acharya (Principal, Atmiya Institute of Technology and Science - Rajkot) for his support and motivation. I can never forget my colleagues at college for their kind support.

During the process of preparation of my thesis, I have referred many books and research papers for which I personally thank the authors who provided me a deep insight and inspiration for the solution of problems. Moreover I extend my deep sense
of gratitude towards the anonymous referees and editors of various journals for their
critical review and constructive suggestions for the improvement of quality of research
papers.

I express heartfelt gratitude to my teachers who ignited the interest in the subject
and moulded my career.

I am highly indebted to my beloved parents, sister and my wife who spared me
from the family responsibilities and encouraged me for the betterment of the career.
This work could not have seen the light of this day without their sincere and moral sup-
port. My lovely loving daughter TWARA also deserves heartfelt thanks for providing
peaceful environment to realize the dream.

My thanks are due to all those who have directly or indirectly supported me in my
research assignment.

Chirag M. Barasara
