ACKNOWLEDGEMENT

In the name of Allah the Most Beneficent and Most Merciful. Almighty Allah gave me strength and courage for carrying out this tedious work. In the whole my life, I will not be able but I am SHUKUR GUZAR that Allah has chosen and blessed me with all HIS NAIMATEN of this world.

It gives me an immense pleasure to express my indebtedness to Dr. Divya Vohora, Reader, in the Department of Pharmacology, whose esteemed guidance, immense involvement, constructive criticism, inquisitive nature, enabled me to accomplish this thesis with zest and zeal. She guided, gave direction and helped me a lot in all sorts of problems, which I faced throughout the tenure of this research. I am very much thankful to her. So many times she purchased chemicals for my research work, which are too costly. And I must say it is she who made this impossible task possible. THANKS a lot.

It’s an honor and privilege, for me to work under my beloved teacher, co-supervisor and Head, Prof. KK Pillai. He has a vast experience and knowledge, is a keen observer and a good researcher. He not only guided but also encouraged me to perform better in all sorts of technical problem, which I met during the course of this project.

I also would like to thank Prof. Suroor A Khan, for his constant support and enthusiastic interest about my work.

Thanks are also to Prof. R. Zafar, Prof. R K Khar and to Prof. Mohd. Ali for their support and encouragement.

I am also thankful to Prof. S H Ansari who motivated and advised me in different hurdles related to the research work.

Words are not enough to express my gratitude to Prof. Sher Ali, who always emphasized for pursuing research work.

Mr. Shibli Jemeel Ahmad, an ideal teacher and an excellent human being, who by the grace of Allah helped me a lot; words are not enough to simply thank him.
Dr. Abul Kalam and Dr. Aqil always boosted my morale so high to finish my work in a short time span.

I am thankful to all my Colleagues Dr. Manju Sharma, Dr. Anshu, Dr. Una Bhandari, Mrs. Kiran Dubey, and Dr. E. Haque for their valuable suggestions and comments derived from their experience. Mrs. Razia Khanum is thanked for her constant support, encouragement and critical comments.

I am thankful to all the lab staff of Department of Pharmacology. A special thanks to Mr. Mushtaq, Mr. Shorab, Mr. Abid and Mr. Mushtaq of CIF.

I feel pleasure for thanking Dr. Farhan Jalees, Dr. Javed Ali, Mr. Shoeb Ahmed, Mrs. Zeenat, Mr. Vinod, Mrs. Jaswinder and Saqib Aziz for their support and help whenever I needed.

My heartfelt thanks to Dr. Ayaz and Dr. Atif for their cooperation and help in providing all relevant suggestions.

My special thanks to Mrs. Shaukat A. Shah, in charge Central Animal House Facility, Jamia Hamdard for her help in providing animals for my research.

I am thankful to librarians (Faculty of Pharmacy, Central library, NML) for providing me sufficient literature for my thesis work.

I am also thankful to my best friends Naved and Ehtisham for their timely support and encouragement.

It's a great feeling and my sincere best wishes for my students; Varish, Wahaj and Alimuddin who motivated me a lot when I was in Srinagar, Garhwal university. I think it was their motivation, which helped me in choosing between the job and Ph.D from Hamdard.

Bodhake, Vijay, Dr. Mukul Tailang are my colleague and friends, motivated me when I was in Garhwal University.
Dr. Shah Alam, Dr. Shaheer Yar, Mr. M. Mujeeb and Dr. Saeed Ahmed also supported and encouraged me in my work.

Dr. Seema from Department of Toxicology helped me in learning the technique of middle cerebral artery occlusion and videopath analyzer recording. I am also thankful to Head, Department of Toxicology for providing the facilities of video path analyzer.

I am grateful to ICMR for financial assistance provided as SRF for six months.

My mother, brothers, sisters and relatives all are always inquisitive for my research work, have faith in me and always supported and encouraged me during my research work.

Adiba and Zubia, my two little daughters waited me a lot during the time when I had to work late nights. It is their love, which energized me and compel to work hard when I used to work alone in the lab.

Last but not the least how I forget my wife, Shabnam, whose silence prayers, both with open and closed eyes always for me, giving me an eternal encouragement, zeal, mental support, boosting my morale in all sorts of problems.

I am again thankful to Allah who is very kind enough and decided best for me in all walks of life.
