ACKNOWLEDGEMENT

Research is carried out when one wish to understand meanings, look at, describe and understand experience, ideas, beliefs and values. So research is an effort put to help the society by suggesting ways and means to make the practical methods used easier, fast and accurate. It is well clear to me that a thesis is not a result of an individual effort as without the guidance and valuable support of many other people who directly or indirectly contributed and extended their valuable support, it would not be possible for me to achieve the desired target. So it gives me immense pleasure to show my indebtedness and profound sense of gratitude to many other contributors who have been instrumental in the successful completion of this thesis.

Firstly, I express my sincere gratitude to my thesis supervisor, Dr. Amar Partap Singh, Professor, Department of Electronics and Communication Engineering, Sant Longowal Institute of Engineering and Technology, Longowal, for his guidance, encouragement and infinite support throughout the research process. His technical knowhow in this field has always landed me in a fruitful direction and I always consider him as my role model throughout my life as I have learnt a lot from him.

I am extremely grateful to Prof. Sunil Pandey, Director & Vice Chancellor, Sant Longowal Institute of Engineering and Technology, Longowal for providing this opportunity to carry out the present thesis work.

I would also appreciate the Departmental Research Committee members, Dr. Jagpal Singh Ubhi, Dr. Anupma Marwaha, Dr. Surinder Singh Sodhi and Dr. Dalip Kumar, for
their critical comments, which enabled me to make the necessary positive improvements in my thesis. My special thanks to Dr. Jagpal Singh Ubhi, Head of Electronics and Communication Engineering Department, Sant Longowal Institute of Engineering and Technology, Longowal for his indebted support. I am sincerely thankful to all the faculty and staff members of Electronics and Communication Engineering Department, Sant Longowal Institute of Engineering and Technology, Longowal for their kind support and needful cooperation. My special thanks are for my colleagues in the department of Food Engineering and Technology, Sant Longowal Institute of Engineering and Technology, Longowal who supported me in every technical aspect related to their field. I am beholden to Dr. T. S. Kamal, FIE, FIETE, Sr. M. IEEE (USA) for his blessing and motivation. Acknowledgements are due to Mr. Narinder Thakur, President Youth Association, Village Panchayat, Sub Division Theog, District Shimla (Himachal Pradesh), for providing apple fruit samples and also for arranging human experts in this field of apple grading.

With profound respect, I express my heartfelt gratitude to my mother late Smt. Surjit Kaur who always inspired me to work harder with sincerity and full dedication to achieve desired goal in life.

I would like to convey my heartfelt gratitude to my Father, Wife and Son for offering me an environment to work freely that enabled me to concentrate on my research.

Last but not least, I would like to thank all my friends who encouraged and helped me to complete my research work successfully.

(Ajay Pal Singh Chauhan)
