ACKNOWLEDGEMENT

I would like to bestow my research work to supreme merciful creator, Almighty Allah, who made life possible and without whom I would not be there. I would like to thank Allah for having guided me this for encouraging me when things looked bleak, helping me to overcome all obstacles in my path. I have performed my work with the confidence that He is there to help me and I pray that it will be so forever.

The present thesis presents experimental work carried out in the Department of Biotechnology, Faculty of Science, Hamdard University, New Delhi, India. This work was funded by a project grant from Department of Biotechnology Govt. of India and scholarship grant (SRF) from Indian Council of Medical Research, Govt. of India.

First of all, I am deeply indebted to my supervisor Dr. Farhat Afrin, not only for giving me an opportunity to work at the Department, but also for making this place second home for me. Her constant guidance, unflinching encouragement as well as positive criticism throughout this entire period have enabled me to explore things in a different light. She has been an empowering teacher, a visionary mentor, a brilliant scientist and an encouraging friend. Her investment will forever impact my future as a good immunologist. Her truly scientist intuition has made me as a constant oasis of ideas and passions in science, which exceptionally inspired and enriched my growth as a student, a researcher and a scientist that I wanted to be. I am indebted to her more than she knows. Her involvement with her originality has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come. Dr. Farhat Afrin’s time and patience was an asset to my research and her contribution goes beyond any measurable value.

With profound respect and reverence I thank my co-supervisor, Dr. Dinkar Sahal, who was always ready to help me. His constant guidance, cooperation, concern and positive criticism were the source of encouragement in pursuing my research work. His intuitive suggestions and constant support given to me from time to time during my research is highly acknowledged.

I emphatically owe my sincere thanks to Dr. G. N. Qazi, Vice-chancellor, Jamia Hamdard for his considerate encouragement and blessings.

I express my sincere gratitude to Prof. M. Z. Abdin, Dean, Faculty of Science for extending me all the facilities to accomplish my task.

I would like to express my sincere gratitude to Prof. S. K. Jain, Head, Department of Biotechnology for his support, suggestions and encouragement in order to expedite my task smoothly and efficiently.

I extend my gratitude and regards to Dr. Alka Narula, Dr. Humaira Farooqui and Dr. Saima Wajid for their support and encouragement.

I express my sincere thanks to Prof. Javed Ahmad for providing me plant materials (Artemisia annua) from herbal garden Jamia Hamdard.
I greatly appreciate the assistance provided to me by Dr. S. D. Sharma and Mr. Irshad of Central Instrumentation Facility, Faculty of Science.

I am highly thankful to my colleagues of Parasite Immunology Lab., Ms. Garima Chouhan, Ms. Farnaz Ahmad, Mr. Mazamil Yaqub Wani, Ms. Priya Yadav, Mr. Shoaib Rafique and Ms. Dolly Singh for their perceptive co-operation.

I am indebted to Dr. Nahid Ali, IICB Kolkata for providing us Leishmania culture.

I extend my deep regards to Dr Selvapandian, J.M., New Delhi for his moral support and valuable suggestions throughout my tenure.

I pay my deep gratitude to Dr. Dwarkanath, Mr. Abdullah for providing me cell line and extending their flowcytometry facility at J.N.MAS, Delhi. I am also thankful to Dr. Naga Arjuna and Dr. Vinay for helping me in carrying out flowcytometry experiments at BD FACS Academy, Jamia Hamdard.

Help from Dr. Tiwari, Animal House Incharge, Jamia Hamdard and Mr. Ibrahim and his co-workers is greatly acknowledged.

Finally, a word of special appreciation also goes to Mr. Fateh Mohammad, Mrs. Noor Fatima, Mrs. Sarika, Mr. Anish Cherian, Mr. Gautam, Mr. Taufique, Mr. Sajid and Mr. Naees for their timely help.

I am also thankful to my friends Dr. Mathar Ali Khan, Dr. Maujiram, Dr. Zahid Ali, Dr. Junaid Aslam, Mr. Shawkat, Mr. Athar Ali, Mr. Naveen and Mr. Anis for their moral support.

Much is owed to my parents, brothers and sister. I feel short of vocabulary to express my heartfelt gratitude to them. It is their true love novel guidance and sincere efforts that shaped my life. I owe everything than the mere words of “thanks”.

The financial assistance from DBT and ICMR in the form of JRF and SRF is gratefully acknowledged.

In the end, I would like to thanks everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention one by one.

Place: Department of Biotechnology,
Jamia Hamdard, New Delhi

Date: Md. Islamuddin
