I begin with expressing my gratitude to Almighty, the most beneficent and merciful.

No words can express my thanks to the people who extended their support and suggestions in the completion of my Ph.D. work. However, I take the opportunity to mention few of them.

The first and the foremost I express my sincere gratitude and respect to my thesis supervisor Dr. Renu Tuteja, for providing her nice laboratory, resources and wonderful supervision to accomplish my research work. I am indebted to her as my guide and it has been an incomparable experience. Her passion for work and dedication towards science and her discipline has been the greatest source of motivation for me. Thank you so much ma’am for your consistent support, competent supervision and constant encouragement. It would have been next to impossible for me to complete my Ph.D. thesis without your expert advices and support.

I express my sincere thanks to Dr Farhat Afrin for co-supervising my Ph.D. work. Ma’am your constructive comments, understanding and encouragements at all stages right from my master course to doctoral study which helped in the smooth completion of the doctoral thesis.

I take this opportunity to thank Prof. V.S. Chauhan, Director, ICGEB New Delhi, for providing nice infrastructure and resources to accomplish the research work of my Ph.D. thesis. I extend my sincere thanks to Dr. Narendra Tuteja, Group leader, PMB, ICGEB, New Delhi, for providing me his lab to carry out some of the experiments related to my thesis. Thank you so much sir for your expert guidance, support, valuable discussion and encouragements.

I also would like to thank to the Vice Chancellor, Dean Faculty of Science and Board of the Research Studies (BRS), Jamia Hamdard, for providing administrative support, evaluating the work and suggestions. I am also thankful to the Administrative Staff of Hamdard University and International Center for Genetic Engineering and Biotechnology, New Delhi for their hassle free administrative support.

I express my sincere thanks to Dr. Pawan Malhotra and Dr. Asif Mohammad for providing nice ambience of their labs and systematic and smooth access to the reagents which avoided unnecessary delay of the work. Thank you so much sir for your every support during my thesis work.
I take this opportunity to thank Dr. Chetan Chitnis, Dr. Deepak Gaur and Dr. Syed Shams Yazdani for every help throughout the thesis work by providing access to their lab.

I am grateful to my M.Sc. course teachers Prof. M.Z Abdin, Prof. S.K Jain, Prof. P.S. Srivastava, Prof. Ehsan Ahmad Khan, Dr. Salim Javed, Dr. Waseem Siddiqui, Dr. Deepshikha Pandey, Dr. Sandip Das and Dr. Alka Narula for their every effort to build strong scientific background which helped me a lot during my Ph.D. work. Thank you all for your invaluable help.

I express sincere thanks to Dr. Debi P. Sarkar for evaluating my initial two years work and recommending my candidature for SRF for next two years. It is my pleasure to acknowledge DBT-Government of India, New Delhi, for providing JRF and SRF during the work of my Ph.D.

It is my pleasure to acknowledge DST-Government of India, New Delhi and INSERM (France) for providing financial support to present the work of this thesis in the international conference at European Institute of Chemistry and Biology (IECB), Bordeaux, France

I express my thanks to Dr. Shailja Singh and Shalini Agrawal for every help during confocal microscopy, Dr Arun Paradhan for his help during the initial days of my Ph.D. work and his efforts to teach me the molecular biology techniques which helped me to complete this thesis.

I express my thanks to Dr Manoj Panchal for the access to the Nop1 antibody and valuable discussion throughout my thesis work.

I am also thankful to the animal house staff for their help in handling and taking care of the mouse used for the preparation of antibodies. I also express my thanks to the malaria lab technical staff especially Narendra Singh for their technical help.

Many thanks are due to my seniors Dr. Sumit Rathor, Dr. Sarita, Dr. Meraj Alam Khan, Dr. Prashant Singh, Dr. Ajmal , Dr. Aqeel, Dr. Enayet Husain, Dr. Mudassir, Dr. Zahid Ali, Dr. Sharfuddin, Dr. Monis Bilal Shamsi, Dr. Shafeq, Dr. Jatin Mehta , Dr. Bishwanath, Dr. Anil and Dr. Krishna Prakash for their consistent help and listening the problems and suggestions to overcome from the problems.

I am glad to have so wonderful labmates, without their support this work would have been very difficult to complete. My sincere thanks to Tarique, Abulaish, Farhana, Leila, Asad, Kibriya, Shweta, Monica, Shivani, Hashim, Faiza, Swati, Nidhi Hans, Neha Munjal, Shefali, Indrajeet, Gayetri, Masroor, Vipin, Farha, Sujata, Mridula, Kalam, Gautam, Asif Gaurav, Gaurab, Azhar, Vandana, Shreyans Aditya, Islamuddin, Garima and priya.
I am very fortunate to have wonderful friends, their help at every stage helped me directly and indirectly during the work of this thesis as well as of great importance in my life. Thanks to my friends Zeeshan, Hafeez, Mohammad Ahmad Ansari, Wajihul, Nagisa, Shamama, Hiba, Rahul, Fareed, Javed, Shoeb, Satish, Serab Dorjee, Shahid, Sarfaraz, Hashim, Mohsin, Pravez, Shariq, Priyanka, Tabish, Khanda, Mehrnaz, Amine, and my other classmates and long list of friends for their help in difficult times, and for all the supports, entertainment, fun and care they provided.

Nobody has been more important to me in the pursuit of this thesis than the members of my family. I would never have been able to reach this stage without the care and unconditional love of my parents (Irfana Bano and Reyaz Ahmad), sisters, brother and cousin. I would like to thank especially to my uncle (Dr. Afzal Ahmad and Dr. Abrar Ahmad) and sister (Tarannum) for their unconditional help, invaluable suggestions, encouragement and appreciations throughout my study.

Moaz Ahmad
