ACKNOWLEDGEMENTS

A journey through bumpy and rocky roads, traversing less explored zones has its difficulties and incentives. Five years of research brought similar experiences for me. Many new persons became friends and extended whole hearted support as a gesture of faith in this venture. The consummation of this work would not have been possible had it not been for the invaluable guidance, cooperation and inspiration of a number of people.

Words do not suffice to convey deep sense of respect that I hold for my esteemed guide, Dr. Sunita Malhotra, Professor & Head, Department of Psychology, M.D. University, Rohtak who was always available to share her pearls of wisdom. Her insights into research methodology made a profound difference to my understanding of certain concepts. My vocabulary lacks words for expressing my gratitude to her for her unceasing guidance, painstaking supervision, unfailing attention and constant inspiration, because of which I am able to undertake this endeavor successfully.

I am deeply indebted in real sense of word to Prof. Radhey Shyam, in the Department of Psychology for his unflinching help and sublime suggestions during the course of this study. I am grateful to the entire non teaching staff of Psychology Department for their timely cooperation. I am also thankful to all the participants who participated in my research whole heartedly for facilitating the data collection.

A special mention has to be made of the support, encouragement and the blessings that I have received from my family members – my parents, my parents-in- law and my sons - Aditya and Abhinav. My special thanks are reserved for my husband Mr. Sanjeev Gupta, who has always stood by me and
has provided me untiring support, encouragement, help for accomplishing this work.

I would like to thank Mr. Raj Kumar Pahwa and Sanjay Saini M/s. S.S. Computers, Rohtak who deserve all credit for painstaking typing and presentation of this manuscript.

I bow and thank the Almighty for giving me strength for accomplishing this mammoth task.

(Vaishali Gupta)
