ACKNOWLEDGEMENTS

No words encompass my feelings of gratitude to whom I have had the person and privilege of being with, a caring and affectionate supervisor, Dr. M. S. Alam, Head, Department of Chemistry, Jamia Hamdard, whose devotion and dedication have brought me to this stage. His ideal supervision and scholarly discussion compelled me to finish my sliced scientific ideas and shape the thesis to its present form. I acknowledge the support and encouragement he provided during all the stage of work of my thesis.

I feel pleasure to express my sincere gratitude to my Co-supervisor Dr. Seema Akbar, Research Officer, for her encouragement and moral support. I thank her for taking interest and providing sustained help in my research work.

I express my sincere gratitude to Prof. M. A. Baig, Dean, Faculty of Science, Jamia Hamdard, New Delhi who introduced me to this University and I greatly weigh his contribution and thank him for providing necessary facilities.

I am beholden to Prof. M. A. Quershi, Head, Department of Chemistry, University of Kashmir, who was always have available to help me with utmost care and attentive academic approach to tide over the hurdles. His constant indulgence was a source of encouragement in pursuit of my research objectives. He has provided me each and every facility whenever I needed during the course of investigation.

I express my deep sense of gratitude to Prof. T. K. Razdan Department of Chemistry, University of Jammu for his help in interpretation of spectra. His healthy criticism and scholarly discussions greatly helped me in finalizing the results.

I feel pleasure in expressing my sincere thanks to Dr. Khalid Siddiqui, Director, CCRUM and Dr. Mohd. Yusuf, Dy. Director, RRUM, Srinagar, whose constant encouragement and affectionate behaviour helped me in completing this work.

I am thankful to Dr. G. N. Qazi, Director, RRL, (CSIR), Jammu, for providing major spectral facilities and hospitality during the work.

I am thankful to Dr. S. K. Kaul and Dr. S. C. Taneja, Scientists, RRL, Jammu for providing me the laboratory facilities while making the derivatives of the isolated compounds.
I am thankful to Dr. R. Roy, Scientist, CDRI, Lucknow, for providing me the spectral facilities and helping in the spectral interpretations of the spectra.

I am thankful to Dr. A. S. Shawk, Scientist, Incharge, RRL, Srinagar, for providing me laboratory facilities at field station Pulwama and for his support. I am also thankful to Mr. Mohd. Maqbool Bhat, who remained every time with me during my research.

I am thankful to Director, CORD, University of Kashmir, for providing the laboratory facilities. I am also thankful to Bilqees Qadari, CORD, University of Kashmir, for extending her tremendous support, guidance and cooperation throughout my research and S. Khurseed Ahmad, Dr. Z. A. Kullu and Ms. Anjum are also acknowledged for their constant encouragement and support. I feel deeply indebted to laboratory staff viz. Mr. Showkat, Mr. Khurshed and Pir Iqbal.

I am thankful to Mr. Muzammil Ahmad and Shoukat Ahmad for typing the thesis.

I feel deeply indebted to laboratory staff viz. Mr. Mohd. Israil, Ehsan Khan, Mr. Jamaluddin and Mr. Ilyas for their help.

A word of appreciation goes to Dr. S. Tanvir Ali, R. A., Department of Chemistry, Jamia Hamdard, for formatting and shaping this thesis.

I am lucky to have been on the company of friends Muzammil, Inayat and Riyaz with whom I have shared my smile and fears. I thank them for their help and hospitality.

I wish to acknowledge all those names could not be mentioned but have helped me in this journey.

I should not forget to offer my heartiest love to my wife because of her sacrifices and blessings that I could gather the impetus to achieve this goal.

Much owed to my parents beyond words can express. Its all their prayers and love that has taken me towards the goal. I am grateful to my brothers and sister for their immense cooperation, patience and tolerance that helped me to achieve my target.
