ACKNOWLEDGEMENTS

There are some debts which cannot be paid back. A student owes one of this kind to his or her supervisors.

Words cannot express my overwhelming sense of gratitude towards all those who helped and guided me to complete my Ph.D in Pharmacology & hopefully, that too, successfully. It will not be possible for me to mention everybody by name, yet there are few people I Just cannot overlook.

I express my profound and sincere gratitude to my venerated guides Dr.(Prof.) M.Y.Shah, Dr.(Prof) M.A.Qazi and Dr.(Prof) Azra Shah whose untiring and highly inspiring guidance helped me in the completion of this work.

I am extremely grateful to Prof. M.Y.Shah (AVCM awardee), Head Deptt of Pharmaceutical Sciences, University of Kashmir for providing the basic facilities, his kind help at every step of my research work, meticulous guidance in final compilation of the thesis and encouragement during the whole research period. It is due to his constant supervision, affectionate attitude and continuous vigil over the progress of the work that present study could be smoothly conducted and completed.

It is a great privilege for me to express my profound regards to Dr.(Prof) M.A.Qazi, Professor, Deptt of Pharmacology, Govt. Medical College Srinagar for his expert guidance in proposing the present problem, designing the methodology and for his critical and constructive suggestions in the pharmacological part of the research work. I am highly indebted for his constant help, counsel and encouragement.

My heartfelt thanks go to Dr.(Prof) Azra Shah, Professor and Head, Department of Pathology & Microbiology, SKIMS Soura, for the pains she took in getting the histopathological studies of the livers of animals conducted at the Deptt.of Pathology, SKIMS and the time she devoted to study and comment on the liver slides of my thesis work. I will always remember her affectionate attitude and the way she spared time from her busy schedule whenever I needed her guidance and help.

I owe my thanks to Pathology Lab staff of SKIMS, Soura for their help in preparing the slides of my experimental work.

My sincere thanks go to Dr.Iqbal, Research officer RRIUM, University of Kashmir for suggesting the plants for my research work and Dr. Naqshi (Consultant Taxanomist) for helping me in identification of crude drugs used in the present study. I am also thankful to Dr. Aqueel Ahmed, Head Department of Statistics for helping in the statistical analysis of the data of my research work.
Thanks are due to former and present Dean Faculty of sciences, University of Kashmir, Prof. A.M. Shah and Prof. M.Z. Chishti for their help, guidance and encouragement during the research work.

I am grateful to my friends Mrs. Sabeeha Nowsheri, Lecturer Deptt. of Pharmaceutical Sciences, Mrs. Yasmeen ji (Head Assistant) and Mrs. Mehmooda ji (Store keeper) for encouraging me during the whole research period and always praying for successful completion of my thesis. I am particularly thankful to Mrs. Mehmoodaji who had to be on her toes during the initial period of my research work to meet my strangest demands.

Words cannot express my thanks to Mr. Iqbal Zargar, Lecturer Deptt. of Pharm Sciences, whose sincere efforts helped me in getting the Deptt. of Pharmaceutical Sciences and University of Kashmir recognised by CPCSEA, a prerequisite for starting my experimental work on animals and also for getting the first lot of rats from Jammu to Srinagar.

Very special thanks to former and present research scholars for all their help, academic and otherwise- Dr. Z.A. Bhat, Dr. Hayat Mukhtar, Dr. Iqbal Zargar, Mr. Mubashir Hassan, Mr. Nissar Khan, Mr. Ishtiaq Chashoo and Ms. Humaira Yousuf. I have been very fortunate in having very friendly and helpful people in the laboratory around me.

I cannot forget the help and encouragement of my juniors Mr. Popinder Singh (Lab Assistant), Mr. Bilaal Rather (Ex Student Presently working with Medley Pharmaceuticals), Mr. Altaf, & few other students of Pharmacy, who were very cooperative and rendered a helping hand during animal dosing and blood sample collection especially during hartals and holidays. My thanks are also due to Mr. Masood Kirmani and Mr. Mashooq working in the office.

I am also grateful to the innocent animals (rats and mice) who had to sacrifice their lives for successful completion of this research work.

I would like to record my heartfelt thanks and supreme gratitude to all my family members my father, my mother, my husband and my children, who have shown extra-ordinary patience and provided me every possible facility, help & moral support and for whom this entire process was a good deal more difficult than it was for me and whose support during the turbulent and tortuous days of this endure made this work possible.

Lastly, I express my thanks to my brother Mr. Irshad, who helped in compilation and for giving final finishing touches to my thesis without which it would have been impossible for me to submit the thesis.

Above all, I thank Almighty Allah for his blessings in my work.

Nahida Tabassum.
