LIST OF PLATES

Plate No. 1: Map of India showing State of the study region (Maharashtra State).
Plate No. 2: Map of Maharashtra showing study regions in Satara and Sangli Districts.
Plate No. 3: A map showing locations of sample collection in Krishna river basin.
Plate No. 4: Experiment for cross inoculation studies on rhizobial isolates.
Plate No. 5: Saline soils at the sampling site.
Plate No. 6: Colonies of the rhizobial isolates developed on CRYEMA.
Plate No. 7: Colonies of the rhizobial isolates developed on CRYEMA.
Plate No. 8: Colonies of the rhizobial isolates developed on CRYEMA.
Plate No. 9: Colonies of the rhizobial isolates developed on CRYEMA.
Plate No. 10: Colonies of the rhizobial isolates developed on CRYEMA.
Plate No. 11: Growth of the rhizobial isolates and cleared zones of dissolved CaCO3 on YEMA containing NaCl concentrations ranging from 0 to 7%.
Plate No. 12: Growth of the rhizobial isolates and cleared zones of dissolved CaCO3 on YEMA containing NaCl concentrations ranging from 0 to 7%.
Plate No. 13: Growth of the rhizobial isolates and cleared zones of dissolved CaCO3 on YEMA containing NaCl concentrations ranging from 0 to 7%.
