ACKNOWLEDGEMENTS

“The fear of the Lord is beginning of Knowledge”

*Proverbs 1:7*

I am extremely indebted to the Hon’ble Vice Chancellor Rt. Rev. Prof. (Dr.) Rajendra B. Lal for his deep concern for my career enhancement. As an in-service candidate, possessing a vast practical field experience in Plant Protection, in association with reputed Multinationals, I was given an opportunity to pursue my M. Sc. and Ph. D. degrees in Plant Protection.

Prof. (Dr.) Madhu Sudan Mishra, Prof. (Dr.) Shafaat Ahmad, Head, Department of Plant Protection, Prof. (Dr.) Parvez Williams, Prof. (Dr.) Mrs. Pramila Gupta, Former Head, Department of Plant Protection and Prof. (Dr.) Sobita Simon are my precious “Gurus” whom I revere who are having immense knowledge in the related field of Plant Protection. I will never forget their valuable contribution, support and able guidance in shaping my future. I am grateful to the Lab attendants who rendered their prompt services towards experiments. Thus, the combined valuable support enabled me to become a Topper in M.Sc. Plant protection.

I was supposed to submit my Thesis and to complete Doctoral Programme in June 2008 but somehow unforeseen calamities kept me awfully engaged in other urgent assignments which constrained me not to complete it in the stipulated time.

The Review Committee comprising of Chairman Prof. (Dr.) Newman Fernandes, Pro. Vice Chancellor, Academic Affairs, Prof. (Dr.) A. K. A. Lawrence, Registrar, Prof. (Dr.) P. W. Ramteke, Dean Post Graduate Studies and Prof. (Dr.) Ajit Paul, Controller of Examinations were generous enough to consider the recommendations of my respected Advisor with respect to delay in submission of thesis. The Hon’ble Vice Chancellor, SHIATS on dated 10th March, 2014 accorded his kind approval for submission of thesis by 30th June, 2014. I shall always remain indebted to the said learned personalities who have given me recognition in the society of the learned.

During this short span, Dr. J. P. Srivastava, Professor Emeritus, Department of Extension, Dr. A. K. Chaurasia, Officer In-charge, Seed Testing Laboratory, Dr. Prashant Kumar Rai, Assistant Professor, Mr. Bazil Avinash Singh, Teaching Associate, Mr. Sharad Daniel Rafi, Computer Operator and Mr. Pankaj Verma Department of Genetics &
Plant Breeding and Miss Stuti Tiwari, who with their combined efforts and valuable time-contribution formatted the thesis as per the norms. I am extremely grateful to them.

Above all, I thank my wonderful Counselor, Mighty God, Everlasting father, Prince of Peace – JESUS CHRIST, for connecting me with precious people full of wisdom and repute, who have contributed their best for my elevation in the society of the learned.
