ACKNOWLEDGMENTS

I wish to express my gratitude towards “GOD – Almighty”, who gave me the strength and courage to fulfil my dream and has showered upon me his choicest blessings.

My sincere thanks to our Hon’able Vice-Chancellor Most Rev. Prof. Rajendra B. Lal, Sam Higginbottom Institute of Agriculture, Technology & Sciences (Deemed to be University), for permitting me to take up this research work and my special gratitude for his supportive and constant encouragement during my study.

My special gratitude is also to our respected Registrar Prof. (Dr.) A. K. A. Lawrence, Sam Higginbottom Institute of Agriculture, Technology & Sciences (Deemed to be University), for his encouragement, insightful comments and support during my study.

It is pleasure to utilize this unique opportunity to express my deep sense of gratitude and offer my most sincere and humble regards to my esteemed teacher and guide Dr. Mohd. Mujeeb, Assistant Professor, Department of Pharmacognosy and Phytochemistry, Faculty of Pharmacy, Jamia Hamdard, New Delhi, for his unparalleled and excellent guidance, continuous encouragement and support in completion of my course and dissertation successfully. Her discipline, principles, simplicity and fearless work environment were cherished during the course.

Words are not enough to thank my beloved external co-guide Prof. Firoz Anwar, Professor and Head, Siddhartha Institute of Pharmacy, Dehradun, Uttarakhand, for his friendly and brotherly approach in leading and guiding me in every step of my endeavour and tailoring my energy towards the successful completion of the dissertation. I am ever indebted and obliged to him.

My sincere thanks to my internal co-advisor Dr. Amita Varma, Associate Professor & Head, Department of Pharmaceutical Sciences, Faculty of Health Sciences, SHIATS, her inspiration and her great efforts to explain things clearly and simply. Throughout my experimental period, thesis-writing period, she provided encouragement, facilities, sound advice, good teaching and lots of good ideas, which all make me to prepare a good thesis.

My special thanks to Prof. P. W. Ramteke, Dean PG, SHIATS-Deemed University for his constant encouragement and support during my study.

I warmly thank the man who has honestly support, encourage, motivate me (not only me, for all) throughout my PhD work is none other than Prof G. S. Shukla, Associate Dean, Faculty of Health Sciences, SHIATS-Deemed University. Whenever I had an administrative problem, he only came and solves it and gave confides to us.

I am very thankful to Prof. Alok Mukherjee, Professor, United Institute of Pharmacy, Allahabad. He has taught me, both consciously and unconsciously, how effective experimental research is done. The perfection and enthusiasm he has for his
research was contagious and motivational for me, even during tough times in the Ph.D pursuit. I am also thankful for the excellent example he has provided as a role model for successful scientist.

It is a great pleasure to acknowledge the kindness of Prof. Md. Ali, Professor, Department of Pharmacognosy & Phytochemistry, Jamia Hamdard, New Delhi for interpretation of the data.

I am beholden to the Director, Sophisticated Analytical Instrumentation Facility, Punjab University, Punjab for the spectral data.

The thesis would not have come to a successful completion, without the help of Dr. H. K. Bajaj, Associate Professor, Department of Medical Lab Technology, FHS, SHIATS. Because Dr. Bajaj and his colleagues provide the animals histopathology and connection with analysis histopathology studies of the animals. He has been most kind and patient and always willing to lend his service whenever I approached him and I acknowledge and appreciate him for all his efforts. I remember, Dr. Vatsala Mishra, Dr. Jay Kumar, Dr. Dhingra and Dr. Kachnar Verma for their help.

It’s a pleasure to record my sincere thanks to the entire faculty and non faculty members of Department of Pharmaceutical Sciences, Faculty of Health Sciences, SHIATS for their kind help during the course of the work.
From the deepest depth of my heart to express my thanks, I bow my head to the feet's of my beloved Parents, Bhaiya, Bhabhi and all other family members, whose uncompromising life principles, love, affection has been always unshared and showered upon me at all stages of life and giving me more than what I deserved in my life and without whose encouragement, co-operation and good wishes this task would have been impossible. Last but not least I would also like to thank especially my nephew Aashi and Daksh for their silent support, valuable love, affection, encouragement and unlimited blessings that enable me to reach the stage of my life.

Last, but not least, words fail me to express my gratitude to my wife Dr. Deeksha Chauhan for their care, sacrifice, affection, love, patience, dedication, understanding and persistent confidence in me, has taken the load off my shoulder. I owe her for being unselfishly let her intelligence, passions, and ambitions collide with mine. I would like to thank her for showing me the beauty and opposite site of life and making my mind relax during the hard times of my thesis. She already has my heart so I will just give her a heartfelt “thanks.”

I am also gratified to my naughty, sweet, charming, lovely daughter Gungun, who joined me when I was writing my dissertation, for giving me unlimited happiness, pleasure and motivate me the past few months, kept on reminding me: “Papa, go to college and write your thesis”!

My friends from the Pharmacognosy group, without whose support I would not have finished this thesis.
