Acknowledgements

With deep sense of gratitude!!!

I would like to sincerely thank my supervisor, Dr. Modhumita Dasgupta for her motivation, guidance, and full support throughout the research period. Her enthusiasm and interest on Science and research encouraged and inspired me towards scientific career. There are not enough words to express my heartfelt gratitude to her, who taught me the strength and positive attitude to overcome many difficulties in research. I am so fortunate and blessed to have such a wonderful person as my supervisor in my career, who has imparted me a different perspective of life with her valuable guidance.

I would like to thank Dr. N. Krishna Kumar, IFS, Director, Institute of Forest Genetics and Tree Breeding for his valuable comments, motivation and for extending all essential facilities throughout the period of my research work. I would also like to acknowledge Sri T. P. Raghunath, IFS, Group Coordinator (Research), IFGTB for his constant support during the Ph. D program.

I express my heartfelt gratitude to the nodal officer, Dr. V. Mohan, Scientist F, IFGTB for his kind suggestions and valuable guidance regarding the Ph.D program. I would like to express my profound obligations to the external experts of the Review Advisory Committee, Dr. A. Selvi, Principal Scientist, Sugarcane Breeding Institute, Coimbatore and Dr. S. R. Sree Rangasamy, Retd. Professor, Tamil Nadu Agricultural University, Coimbatore, who have given their valuable comments and suggestions for improving the research work.

I am highly obliged and thankful to Dr. R. Yasodha, Scientist F, Head, Division of Plant Biotechnology, IFGTB, for her valuable suggestions and support during my tenure of work.

My profound thanks to my senior, Dr. Radha Veluthakkal for teaching me all the expertise in lab techniques and sharing her research experience, which helped me to improve my research capabilities.

I am gratefully indebted to my juniors and dear friends, Ms. V. Dharanishanthi and Mr. Blessan Santhosh George for their diligent help at needful hours in all possible ways to complete my research work successfully. I owe my sincere appreciation and gratitude to them who helped me out in various analyses and was with me all the time to share ideas for successful completion of the thesis.

I am happy to register my profound gratitude to Mrs. Sushamani, RA and Mr. P. Selvaraj, JRF for their valuable assistance and continuous support during the hormone treatment experiment.
I would like to thank all the scientists, Dr. B. Nagarajan, Dr. N. V. Mathish, Dr. Rekha Warrier, Dr. A. Shanthi and Dr. V.K.W. Bachpai, Division of Plant Biotechnology and Mr. M. Mayavel, Scientist B, Division of Genetics and Tree Breeding for providing me with lab facilities and support during the period of my research work.

I am grateful to all the technical staffs of PBT division, Mr. Ashokan, Mrs. Suseela and Mr. Ranganathan for their continued support and immense help during the work period.

I would like to acknowledge Dr. Viswanathan, Head, Division of Plant pathology, and Dr. Subramoniam, Principal Scientist, Sugarcane breeding institute, Coimbatore, for providing Real time PCR facility and access to hybridization facility. I am also grateful to Mr.Ganesh, Mr. M.Chakravarthy and Mrs. Sathya and Mr. Chinna, students of Sugarcane Breeding Institute for their technical assistance on qRT-PCR and hybridization experiments. My sincere thanks are due to Dr. Letizia Camus-Kulandaivelu, CIRAD, France for providing some of the CesA primer sequences.

I am obliged to Dr. Mujeera Fathima, Associate Professor, Government Arts College, Chennai for providing valuable suggestions on hormone treatment experiment, which helped me to carry out the work.

My whole hearted thanks are due to all my beloved friends Annie, Arun, Kavi, Kamatchi, Monika, Niraimathi, Nithya, Saras, Venkat and Tamilazhagan, who have always been with me to encourage and support me with their kind words and affection during tough times. I express my profound gratification to Arun, Ranjani, Pushpanathan and Illakiam for their kind help and clarifications during thesis writing.

I owe my indebtedness to my beloved parents, R Balachandran and B Renuga, who have always been there for me with their unconditional love, care, and endless support in all my endeavours with great concern. I carry the sincere and heart-warming gratitude to my beloved aunty R Logasundari and uncle Krishnan (late) for their immense care, inspiration and support in all my accomplishments. I would like to express my heart warming appreciation to my precious sister, B Sangeetha for her deep affection, loads of care, immense support, constant encouragement and sacrifices in making my study successful. This thesis would not have been possible without the motivation from all my cousins and relatives.

I gratefully acknowledge the National Forestry Research project, ICFRE for financial assistance in the form of Junior and Senior Research Fellowships. I would like to express my profound gratitude to all those who helped me directly or indirectly in the successful completion of this thesis.

Karpaga Raja Sundari, B.
