ACKNOWLEDGEMENT

I am grateful to Allah for guiding me in the right direction and giving me the strength and will to complete this study.

It is with great pleasure I express my deep sense of gratitude to Dr. H.S.MUTHU MOHAMED, Research Supervisor, Research & Development Centre, Bharathiar University, for suggesting the problem, providing able guidance and constant help with responsive encouragement. He has been a source of inspiration and motivation. I could ever count upon his unfailing help, constructive criticism, brotherly affection and instant provision of all requirements without which it would not have been possible to complete this study.

My profound thanks are due to the Director, Research and Development Centre, Bharathiar University and staff members of Research and Development Centre, Bharathiar University for providing me the much needed support throughout the period of research.

I would like to thank the generous & enlightened office bearers of the VME Society especially Mr.C.Khaiser Ahmed, Former general secretary, VMES, Mr.L.M.Muneer Ahmed , Secretary & Correspondant, Islamiah College, Dr. Hajee Anwarullah, general secretary, VMES for their kindhearted support in providing necessary facilities during the course of my research work.

I take this opportunity to express my sincere gratitude to Dr. K. Prem Nazeer, Principal, Islamiah College, Vaniyambadi for the timely help and constant encouragement in carrying out this work.
My special thanks are due to Prof. V.M. Anwar Basha, Vice Principal, Islamiah College, Dr. Major Syed Shahabudin, Former Principal, Islamiah College, Prof. P. Nasrullah Basha, Former Principal, Islamiah College, and Prof. P. R. Saifullah, Former Vice Principal, Islamiah College, Vaniyambadi for their keen involvement, enthusiasm, motivation, and kind help in a number of ways during the course of research.

I would like to express my deep sense of gratitude to Dr. A. Liyakath Ali, Associate Professor and Head, Department of Biochemistry, for the valuable suggestions, critical comments and commendable support in completion of the thesis.

I would like to record my sincere thanks to Dr. S. K. Hayath Basha, Former Head, dept. of biochemistry, Dr. K. Subramani, Associate professor, Dept. of Chemistry, Islamiah College, Vaniyambadi, Dr. A. Gokulakrishnan, Dr. I. Niyaz Ahmed, M. Syed Muzammil, M. Magendiramani, P. Md. Kashif, and A. Amjad, Assistant professors, Dept. of Biochemistry, Islamiah College for their cooperation during the period of investigation.

I am thankful to M. Ibrahim shadab, S. Kaleem and Nazeer Ahmed for their help in the laboratory.

I am grateful to CMC, Vellore for extending help in carrying out transmission electron microscopic studies.

I am most grateful to Dr. Belma Kocer Giray, Professor, faculty of pharmacy, department of toxicology, Hacettepe University, & Director, turkey doping control centre, Ankara, Turkey, for providing the valuable research papers and comments.
Finally, I must acknowledge that, my family members especially my brothers Dr. Ather Sayeed, Prof. Sadeed Azhar, Anzar Adeed, and Soban Akram have given me their unequivocal support throughout this work, for which my mere expression of thanks does not suffice.

M.P.ASHAR WAHEED
