ACKNOWLEDGEMENTS

*Feeling gratitude and not expressing it is like wrapping a present and not giving it.*

William A. Ward

I am very thankful and wish to place on record my deep sense of indebtedness and gratitude to my thesis advisor, Dr. K. I. Ramachandran, Professor, Department of Mechanical Engineering, for his valuable guidance, positive suggestions, generous encouragement and immense help throughout this research investigation.

I specially acknowledge and register my gratefulness towards Dr. V. Sugumaran for providing me with the knowledge on Machine Learning, valuable suggestions, support and encouragement throughout the period of research.

I take this opportunity to express my sincere thanks Poojya Swamiji Abhayamrita Chaitanya, Pro Chancellor and architect of Amrita Vishwa Vidyapeetham University, whose wishes, support and encouragement helped me achieve this research.

I am very much indebted and thankful to Dr. P. Venkatrangan, Vice-Chancellor and Dr. N. Narayana Pillai, founder Principal of this University for their encouraging and motivating words to pursue this research.

My special thanks are to Dr. N. S. Pandian, Chairman, Committee for Post Graduate Programmes, for his strife in maintaining the quality of research.

At this time I also take the opportunity to thank my former research supervisor Dr. V. Radhakrishnan for his help during the coursework and registration of this research study during the initial days.

I am thankful to the doctoral committee members Dr. K. Mohandas, Dr. K. P. Soman and Dr. C. Shanmugavelayudam for their timely suggestions and directions.
I am also thankful to Dr. M.P. Chandrasekaran, Dean – Engineering, Prof. A. K. Balakrishna Nair, (Chairman – Admissions), Dr. K. Rameshkumar, (Chairman, Department of Mechanical Engineering) and Dr. Joshi. C. Haran for providing the research ambience in the department.

As this research work was inter-disciplinary in nature, there were many allied topics to get familiar with; I gratefully acknowledge the experts, who were instrumental in imparting them to me; Dr. Sriram Devanathan (Minitab and Regression), Mr. Gandhirajan (Digital Signal Processing), Mr. Ravikumar (EndNote), and Mr. P. Krishnakumar (Mechanical Vibrations).

I thank Mr. S. Babu Devasenapati and Mr. Rajesh Senthilkumar for their help during the recording of vibration signals and Mr. Radhakrishnan of Metrology lab for providing the surface roughness measuring equipment.

I sincerely thank my mother, father, teachers, wife, sons, friends, sisters, uncles, other family members, students and colleagues for their patience, tolerance, support and encouragement during the entire research period.

Finally, I prostrate at the lotus feet of AMMA, Sadhguru Sri Mata Amritanandamayi Devi, for providing me with an opportunity to serve this great University and making me a part of it. I very humbly thank THE ALMIGHTY GOD for providing me the luxury of acquiring PhD and all the knowledge leading to it.

Yours sincerely,

M.Elangovan
