Acknowledgement

"An education isn't how much you have committed to memory, or even how much you know. It's being able to differentiate between what you know and what you don't. Education would be so much more effective if its purpose were to ensure that by the time they leave school every boy and girl should know how much they don't know, and be imbued with a lifelong desire to know it."

-- Sir William Haley

Since, time immemorial, one saying has always stood firming on its ground, man proposes, god disposes, I am extremely thankful to the Almighty God for making me capable of doing all that I proposes, the work leading to my Ph. D thesis submission is one of them.

Yes! My thesis is the sensible result of effort of all those people mentioned or not mentioned here. Still, it is too less to express my deep sense of thanks to them.

"Knowledge can only be got in one way, the way of experience; there is no other way to know." Swami Vivekananda

It is with deep respect and gratitude; I take this opportunity to express my sincere thanks to my experienced & respected guide Dr. (Mrs.) Kokilaben A. Parmar Department of Chemistry, Hemchandracharya North Gujarat University, Patan under whose able guidance support, direction, encouragement and supervision, I am able to complete the present thesis.

I overflow with gratitude and no words to express my thankfulness to Mr. A. R. Makwana, Chief accountant officer Hem N. G. University, Patan.

I never forget the help, encouragement, inspiration and homely environment of Mr. A. M. Vankar created and provided to me like his family member.
The life itself is their gift to us, so I am at loss of word in which to own my most esteemed father Shri Jayantibhai Vasava and my loving mother Smt. Shobhnaben Vasava. Through the stress and strain of this study, my elder brother Mr. Anil Vasava and younger brother Mr. Ajit Vasava encouraged me to reach my destination.

My special thanks go to Nisha Vasava for her innocent inspiration throughout the research work.

I offer my heart full gratitude to Dr. Sarju Prajapati for his support and much faithful discussion at various stages. I am most thankful to my seniors and juniors. Dr Nikhil Singh, Dr. Ratilal Radadia, Dr. Kamlesh Kundaria, Dr. Viral Modi, Dr. Jayendra Vihol, Dr. Yogeshbhai Dabhi, Dr. Bharatbhai Suthar, Dr. Poonam Malaviya, Dr. Rekha Patel, Dr. Shashikant Sutariya, Dr. Dhaval Solanki, Dr. Maharshi Shukla, Dr. Prakashbhai Sutariya, Chetan Patel, Mr. J. F. Mansuri, Mr. A. T. Mahato, and Mr. H. C. Sonara, Vaishali Chauhan and Prof Ranjit Patel for their moral support, generous help and affectionate concern during my studies.

I am very thankful to my best friends Niraj Pankhania, Darshan Mavani and Kiran Deshmukh who ever stood beside me with their helping hands and moral support.

I gratefully acknowledge the most willing help and co-operation shown by RSIC Punjab University, Chandigarh and CDRI Lucknow for spectroscopy analysis and Microcare laboratory and Tuberculosis Research center, Surat for biologically activity, I also thanks to Raga institute and virology center Belgium for anti viral activity, and Bio-care institute Karnataka for anti oxidant activity and also microbial activity.
