LIST OF FIGURES

PAGE No.

I. 1 Location map of Chittoor taluk, Chittoor District, Andhra Pradesh, South India. 5

I. 2 Communications within Chittoor taluk 7

I. 3 Administrative divisions of Chittoor taluk 16

II. 1 Landsat Scene D143-051 of 15th February 1989 of Chittoor taluk. 28

II. 2 Geological and structural map of Chittoor taluk 30

II. 3 Grey granite boulder at Iruvaram (Code No.64) 33

II. 4 Granite block with open vertical joint in centre near Penumur (Code No.14) 33

II. 5 Bouldery grey granite hill near Iruvaram (Code No.64) 33

II. 6 Classification of granitic rocks based on the relative proportions of quartz, feldspar and Plagioclase feldspar 35

II. 7 E-W trending dolerite dyke ridge cutting across the grey granitic rocks on Chittoor-Gangadhara Nellore road (Code No.49) 39

II. 8 Close up view of dolerite dyke which is highly fractured and bouldery in nature. 39

II. 9 Sandy alluvium in the Poini river bed at Kalvagunta (Code No.36) 39

II.10 Milk white quartz vein near Puthalapattu (Code No.24) 41

II.11 Highly fractured and jointed white quartz vein near Puthalapattu (Code No.24) 41

II.12 Highly weathered, fractured and jointed dolerite dyke with spheroidal weathering near Puthalapattu (Code No.24). 41

II.13 Relief map of Chittoor taluk. 45

II.14 Map of Chittoor taluk showing the mean slope of the ground. 47
III.8 Chemical analyses of samples of polluted ground water in Chittoor taluk.

III.9 Ranges and mean of values determined for the constituents and properties of water samples analysed.

III.10 Classification of waters for irrigation based on percent sodium and specific conductance.

III.11 Geochemical classification of water samples of Chittoor taluk.

IV.1 Village-wise distribution of population in Chittoor taluk in 1981.

IV.2 Village-wise density of population in Chittoor taluk in 1981.

IV.3 Village-wise percent male non-agricultural workers to total workers in Chittoor taluk in 1981.

IV.4 Village-wise number of settlements in Chittoor taluk in 1981.

IV.5 Village-wise percent non-workers to total population in Chittoor taluk in 1981.

IV.6 Village-wise percent population growth in Chittoor taluk during 1971-81.

IV.7 Village-wise percent change in non-workers in Chittoor taluk during 1971-81.

V.1 Village-wise percent cultivable land to village land in Chittoor taluk in 1981.

V.2 Village-wise percent cultivated land to cultivable land in Chittoor taluk in 1981.

V.3 Village-wise agricultural density in Chittoor taluk in 1981.

V.4 Village-wise percent irrigated land to cultivated land in Chittoor taluk in 1981.

V.5 Village-wise land irrigated by groundwater lifted by electric pumpsets in hectares in Chittoor taluk in 1981.

V.6 Village-wise percent ground water lifted with electric pumpsets to total ground water lifted in Chittoor taluk.
VI.1 Village-wise percent change in cultivable land in Chittoor taluk during 1971-81. 238

VI.2 Village-wise percent change in cultivated land in Chittoor taluk during 1971-81. 242

VI.3 Village-wise percent change in irrigated land in Chittoor taluk during 1971-81. 244

VI.4 Village-wise percent change in land irrigated by ground water in Chittoor taluk during 1971-81. 247

VI.1 Balance of ground water available for exploitation in Chittoor taluk. 260

VI.2 Strip resistivities at a site adjacent to a successful bore well in a granitic formation in Chittoor. (Code no.55). 278

VI.3 Strip resistivities at sites adjacent to unproductive wells. 280

VI.4 Determination of the thickness of sandy alluvium from strip resistivities. 281

VI.5 Strip resistivities at sites where special problems are encountered at Kalavagunta (Code No.36). 282

VI.6 Strip resistivities obtained by making crossed soundings on a thin dyke rock within granitic rocks. 283

VI.7 Wells drilled based on resistivity surveys. 286

VI.8 Mandal-wise groundwater potential in Chittoor taluk. 290

VI.9 Effects of human activities on the pollution of groundwater. 318

VI.10 Five-day biochemical oxygen demand of some common effluents. 324
