ACKNOWLEDGMENT

I thank God Almighty for showering his blessings on me and giving me the strength and will power to complete my project work successfully.

I acknowledge my deep dept of gratitude to my learned guide Dr.N.Neelakanda Pillai, Associate Professor in Physics, Arignar Anna College, Aralvoimoli who was a perennial source of inspiration for me ever since. I had the good fortune of being his student. I depended on and drew upon his fund of scholarship to make my thesis into what it is now. His scholarly suggestion and constructive critism threw revealing light on many a point that intrigued me. The very fout of his having placed his well-equipped personal library as well as his computer at my disposal speaks eloquently of his generous heart and liberal mind. I will ever remember his kindness, sympathy and able guidance. In short, I am proud to say that he is the Architect of my crystal study knowledge.

I owe my indebteness to DR.S.Manakavala Perumal, Secretary, Arignar Anna College, Aralvoimoli and Dr.S.Subramania Pillai, Principal, Arignar Anna College, Aralvoimoli for their kind encouragement throughout my research work.

I also wish to record my sincere thanks to Er. P.Arumugam Pillai, Chairman-Secretary, S.T.Hindu College, Nagercoil and Dr.A.Meenakshisundararajan, Principal, S.T.Hindu College, Nagercoil for their readiness to allow me without any hesitation to carry out the laboratory works in correction with my research work at Research and P.G.Department of Physics,S.T.Hindu College.

I express my heartly thanks to Dr.C.K.Mahadevan, Associate Professor of Physics, S.T.Hindu College, Nagercoil, for his encouragement and valuable suggestions.

I am much indebted to Dr.C.Dennison, Head of the department of physics, S.T.Hindu College, Nagercoil for his readiness to make use of the laboratory for all times whenever I approached him and also for his sincere advice.
I also record my sincere thanks to the members in the Physics department of S.T.Hindu College, Nagercoil for their continuous encouragement during my research work.

I am very much thankful to all my colleagues of Physics department of Arignar Anna College, Aralvoimoli for having helped me in one way or other.

I also express my sincere thanks to Dr. C. Manickavasagam, Librarian, S.T. Hindu College, Nagercoil for his immense help to collect the relevant literature for my research work.

I also express my thanks to Dr. P. Kolappadhas, Associate Professor of English, S.T. Hindu College, Nagercoil for making correction with the language side of the thesis.

I owe much to the fellow Research Scholars Mr. S. Sivannanthan and Mrs. A. Lesly Fathima who have extended their help whenever I required their assistance.

I also owe a word of thanks to SR DTP centre, Nagercoil, who has done the computer typing of the manuscript of this thesis very carefully and neatly.

I wish to extend my heartful thanks to my parents, my husband, my two children, my guide’s parents, his wife and his two children for their support and co-operation during the period of this research work.

C.V. SOMASUNDARI
