Preface

I take this opportunity of expressing my deep sense of gratitude, regards and appreciation to my supervisor Dr. Sudhansu Sekhar Maiti for proposing the topic of the present Ph.D. thesis and for introducing me to the magnificent field of research in Statistics/Statistical Inference and Reliability.

I owe my sincere gratitude to Dr. G. Chattopadhyay, Calcutta University, Kolkata for his constant inspiration and collaboration, and for giving his consent to include our collaborative work in my dissertation.

I convey my heartfelt thanks to Dr. Mahendra Saha, research scholar of our group. Also, I sincerely thank to all the faculty members, research scholars and other staff members of our department for their sincere co-operations.

I owe my loving thanks to my parents and brother for their moral support.
