ACKNOWLEDGEMENT

This thesis would not have been possible without the help of so many people in so many ways. Therefore, there are many who deserve credit, but some need mention by name. The work presented is the outcome of the guidance of my supervisor Dr. Sujata Kapoor, (Assistant Professor, JBS, JIIT). Her enthusiasm and dedication to this work, even with her other more pressing commitments, has been a source of inspiration to me. Her strive for perfection has helped in developing into a more competent person. Her continuous encouragement during difficult times and expert advice has made this research see the light of the day.

I would especially like to thank Dr. Jhumur Sengupta, (Assistant Professor, Dinabandhu Andrews College, University of Calcutta). Her valuable inputs and suggestions from the inception of this work to its culmination have been indispensable. Working with her has been a great learning experience and her expertise guided me in getting out of tricky situations on several occasions.

I am extremely grateful to the Director JBS, Dr. Irfan Rizvi and the Vice Chancellor, JIIT, Dr. S.C. Saxena for providing the requisite learning resources and infrastructural support which were crucial for this research work.

I would also like to extend my sincere gratitude towards the DPMAC members of JBS, Dr. Naseem Abidi, Dr. Vandana Ahuja and Dr. Rahul Sharma who helped me out for proper and timely fulfillment of work. I am also thankful to my colleagues at JBS who encouraged me at every step.

I am indebted to my parents and brother Ashutosh for all the patience and motivation that they have given me from time to time. I would also like to express my sincere acknowledgement to all my friends, especially, Hitasha Goswami, Shivani Pandey and Neha Verma, who stood by me through the ups and downs and provided me the comfort and solace which many people are bereaved of. A special mention goes to the new addition in my life, my husband, Upendra Srivastava, for bearing with me and providing the necessary motivation and rock solid support, especially during the final stages of my work. Above all I am thankful to God Almighty for giving me the strength and perseverance to achieve my goals.
