ACKNOWLEDGMENTS

Pursuing a Ph. D. is both a painful as well as delightful experience. It’s very similar of a high peak climbing process, in sequential steps one after the other escorted by bitterness, frustration, hardships, motivation and trust. When I found myself on the top enjoying the beautiful scenery, I somewhere realized that in fact it was a support and encouragement of lot of people who helped me in different ways along the way. It would not be enough to put my sincere gratitude towards them but I would like to convey heartfelt thanks to all of them.

First, and foremost I am highly indebted towards my honorific Ph. D. supervisors Prof. Bhudev Sharma and Prof. N. Kalyanasundaram for accepting me as Ph. D. student and always lead me in the right direction. I thank them that they always managed to spare time for our work discussions irrespective of their highly hectic schedules. Without their honourable guidance, this work would not have seen the light of this day.

It is my great pleasure to acknowledge my gratitude to our Vice-Chancellor Prof. S. C. Saxena, Prof. Yaj Medury (COO), Prof. Krishna Gopal (Dean A & R) and Col. Vijay Kumar (Registrar) for their constant support and infrastructural facilities provided for my research work at JIIT.

My sincere thanks are to Prof R. C. Jain, HOD, ECE, JIIT, Noida for his constant encouragement throughout my research. I would also like to thank Dr. B. P. Chamola, Dr. A. K. Aggarwal and Dr. Alka Tripathi, members of DPMAC for their evaluation and valuable suggestions during my presentations. I also take this opportunity to thank faculty members of the department who always enlightened me by sharing their research experiences to accomplish the quality work.

I would like to express my sincere thanks to my home ‘Jaypee Institute of Information Technology’ which provided me an ideal environment and hence I could concentrate on my research work.
I am highly grateful and indebted towards my parents and my parents-in-laws. Their understanding, love and undying faith in my capabilities always motivated me to work hard and pursue a Ph. D. Their moral value oriented and ethical personality has always affected me to be motivating and never bend to a difficulty. They always let me know that they are proud of me which motivates me to work harder and do my best.

Last but not the least I am greatly indebted to my husband Vishal Gupta and daughter Kopal Gupta. They form the backbone and origin of my happiness. Their love and support without any regrets or complaints has allowed me to complete my Ph. D. I owe my achievement to both of them.

Richa Gupta
Department of Electronics and Communication Engineering,
Jaypee Institute of Information Technology, Noida, June 2013
