Acknowledgements

I sincerely express my gratitude to my teachers Dr. Rajesh Arora, Scientist ‘E’, Institute of Nuclear Medicine and Allied Sciences (INMAS), (DRDO) New Delhi, Dr. Sarwat Sultana, Associate Professor, and Dr. S. Raisuddin (Head), Department of Medical Elementology and Toxicology, Jamia Hamdard, New Delhi, for their invaluable guidance and supervision of this work. Without their help, perpetual support and encouragement, this work would not have been possible.

I take this opportunity to thank Dr. R. P. Tripathi Director, INMAS for his constant encouragement, critical comments, suggestions and help. Special thanks are due to Dr. R.K. Sharma (Jt. Director, Head, CBRN Defence, INMAS) and Dr. B.S. Dwarkanath (Head of the Department of Radiation Biology) for their support during my PhD work.

I would be failing my duty if I don’t thank’s Drs. Raman Chawla, S. R. Nayak, Damodar Gupta, Raj Kumar for helping me during the course of this work. It would have been impossible to complete the thesis without their ideas and guidance. They always helped me beyond the word ‘help’.

I am also highly thankful to Drs. Suheil Parvez and Abdur Rub (Hamdard University, Delhi) for their selfless suggestions during the course of my studies.

Sincere thanks are due to my friends and colleagues Manish Adhikari, Jyoti Sharma, Sagar Priyadarshi, Poonam Malhotra, Saurabh Mishra, Deen Dayal Bansal, Dev Dutt Patel, Vijay Singh, Rashid Ali, Praveen Kumar and Aashutosh Gupta on whom I could always rely during times of need. I am deeply indebted to Wajihul Qamar, Abdill Lateef, Muneeb U Rahaman, Mir Tahir and Sana Nafees for helping me in so many ways.
I wish to record my gratitude towards Dr. Hemant Gautam, Scientist ‘E’ (Institute of Genomics and Integrative Biology, New Delhi) and Dr. Khan, Scientist ‘D’ (Defence Institute of Physiology & Allied Sciences, New Delhi) for their support during the course of this work.

I am indebted to Dr. Rajeev Vij and his team of efficient library staff of INMAS for rendering all possible help. The help rendered by Dr. I. Prem Kumar also duly acknowledge.

Thanks are due to by Dr. N. K. Chaudhury and Dr. J. S. Adhikari for Flow Cytometry Training and providing their lab facility. A number of other people directly or indirectly helping me. I am indebted to all of them even if their names have not been mentioned individually.

I am grateful to ICMR, New Delhi for providing the necessary financial support in the form of a research fellowship to me. I am thankful to DRDO for providing me the infrastructure and facilities for carried out this work at the Institute of Nuclear Medicine and Allied Sciences, Delhi.

I find myself absolutely incompetent to put in words my gratitude to my parents, and my family members for their constant inspiration, unfailing support, and warm blessings which made it possible for me to complete this work successfully in all the conditions.

I am especially thankful to my wife Ms. Yash Prabha for her tireless support during the course of my work. I would like to thank my little daughter Tanishka for her lovely smiles.

Finally, I am thankful to Almighty God for giving me the strength to complete my Ph.D. thesis timely, without any hassles.
