ACKNOWLEDGEMENTS

I would like to express my sincere gratitude and profound respect to Dr. BABU PHILIP, Research Guide, Research Centre in Chemistry, St. Thomas College, Palai, under whose constant supervision the work presented in this thesis was carried out. The influence of his vast scholarship and constant encouragements have been the chief contributing factors in the successful completion of this work.

I wish to express my deep sense of gratitude to the Principal, St. Thomas College, Palai, for the invaluable support and facilities provided to me.

I am grateful to Prof. O.T. Devasia, Head, Department of Chemistry, St. Thomas College, Palai, for his enormous help and genuine interest in the progress of my work.

I would like to express my sincere thanks to Prof. K.J. Scaria, Prof. A.V. Antony and Prof. T.J. Joseph, previous Heads of the Department of Chemistry, St. Thomas College, Palai, for their support and encouragement provided to me during their service in the college.
I am glad to render my deep gratitude to the teachers and non-teaching staff of the Department of Chemistry, St. Thomas College, Palai, for their whole hearted cooperation.

Words cannot express the cordial gratitude to the Principal, Head of the Department and my colleagues in the Department of Chemistry, Baselius College, Kottayam for their constant cooperation and encouragement.

I am thankful to the Secretary, All India Association for Christian Higher Education, New Delhi, for their kind willingness to provide financial assistance for printing this thesis.

My special thanks are due to M/s. LASER WRITE, Ettumanoor, Kottayam, for Word Processing and Photocopying of this work.

I wish to express my sincere thanks to the members of my family and all other well wishers for their keen interest and cooperation during the period of my research work.

K.M. YELDHO
