ACKNOWLEDGEMENTS

The topic “Organization Learning, Culture and quality initiatives in Technical Education Institutions: a case study With Reference To Punjab & Haryana State.” Was essentially envisaged with a view to study, analyze and present the relevant and the pertinent findings to further the cause of establishing quality professional educational institutions in Punjab and Haryana.

Various persons have been instrumental in pursuing this cause.

First and foremost, I would like to express my deepest sense of gratitude to Prof (Dr.) G.S. Batra, who has been more than a guide to me. He is among a few who represent excellent qualities of head and heart. If it were not for Prof. Batra this work could never have come to light. Apart from performing his formal professional obligations, he was the proverbial inspiration to me. It is a tribute to him that the work could reach conclusion well within the time-frame. His wife has been kind enough to support me during my visits to his house and making me feel at home during the reviews- even at their expense.

I would also like to express my deepest gratitude to professor (Dr.) A.S. Chawla (Ex- Chairperson ) and Professor (Dr.) P.S. Gill (Chairperson), who have supported me throughout my research work.

Dr. Batra deserves special mention here for being the excellent supervisor for this project. His guidance and co-operation- right since the day one, has been both parental and academic that made this study more than a research. His thought provoking ideas and instruments have been made explicit at various places in the dissertation. He was kind enough to extend me all the co-operation and support during the entire research phase — even accompanying him while visiting PATIALA during the periodic reviews of the work.
Dr. Veneet Kohli (Advisor IGNOU, Ex Assistant Director, AICTE) deserves special mention. He helped immensely with the much-needed study materials from time to time and underscored his own contributions through very pertinent and timely suggestions. Mr. Sachin Sethi also deserves special mention who have been helpful in data collection and tabulation from time to time. I am thankful to all of them.

All the respondents (directors, faculty members, staff and students) from various professional educational institutes of PUNJAB and Haryana – who helped me in getting the responses during their precious time, are gratefully acknowledged. The study would have been meaningless without their support. The brains behind all the websites and other multimedia contents referred and used in the dissertation are also gratefully acknowledged.

Last but not the least, my parents, my in-laws, the spouse, brother & sisters, friends and all those consider me as a vital element of their lives deserve special honor. A thanks giving to those is mere formality here than the immortal associations.

Deepika Kohli
