Acknowledgement

With much pride and delight, I express my heartfelt sense of gratitude and indebted to Prof. (Dr.) P. K. Rout, I.T.E.R, S‘O’A University, Bhubaneswar for his invaluable guidance, supervision and insuperable encouragement. In fact, he instilled in me the need of a passion of pursuing a real research career. He has spare much of his valuable time for discussion pertaining not only to this study, but also for most of his empirical finding about the Distributed Generation placement & sizing problem in the distribution network. In a nutshell, without his kind help, sustained encouragement and guidance, this thesis could not have been completed.

I am thankful to Dr. Bijaya Ketan Panigrahi, IIT, Delhi for his guidance help and consistence encouragement during the work of this thesis. I am gladly thankful to Prof. (Dr.) P.K. Dash for motivating and drawing my attention to do research to achieve this milestone, also I am thankful for his valuable comments on this work.

I would like to recognize the help and assistance given to me during the work by Prof. Manojranjan Nayak, the President, Prof. R.P. Mohanty, the Vice-Chancellor and Prof. M.K. Mallick, the Director, S‘O’A University, Bhubaneswar. I am especially thankful to Prof. (Dr.) P.K. Nanda, Dean Research, S‘O’A University for his constant encouragement and inspiration at various stages of this work.

I would like to extend my heartiest thanks to my near and dear ones especially library staff and faculties of Electrical Science of Institute of Technical Education & Research (ITER), S‘O’A University, Bhubaneswar.

I am deeply indebted to my father, Late Sri Lambodar Nayak and mother, Smt Umamani Nayak for their blessing and prayer, which enabled me to carry out this research. Also I would like to express my thanks to my wife, Mrs. Bijayalaxmi Nayak and my son Saswat Nayak, for their emotional deprivation during the entire period of work.

Manas Ranjan Nayak.
Bhubaneswar
