ACKNOWLEDGMENTS

I am deeply grateful to my Supervisor, Dr. P.V. Ramana Rao, Professor in Electrical and Electronics Engineering Department, College of Engineering and Technology, Acharya Nagarjuna University, Guntur, for his guidance and encouragement. His enthusiasm and insightful criticism has been inspiring and motivating throughout this study. Dr. Ramana Rao has been a wonderful mentor and he was the one who directed my attention to the concept of HVDC supplementary controls. This idea has determined the direction of my research and added another dimension to the final product.

I would like to acknowledge my grateful thanks to my Co-Supervisor, Dr. S.V. Jaya Ram Kumar, Professor in Electrical Engineering Department, JNTU College of Engineering Hyderabad, for his invaluable guidance, encouragement and co-operation throughout the course of this Thesis.

Some more Professors have been particularly kind in their willingness to impart ideas and information relevant to my research. I would like to acknowledge my grateful thanks to Dr. Mylavarapu Ramamoorthy, Former Director, CPRI and Former Director, ERDA, Baroda who has supported me with his ideas stemming from his in-depth knowledge and expertise in the operation and control of electrical power systems. I am fortunate to be associated with him.
I am indebted to Dr. Gokaraju Suryanarayana Raju, Former Director, IT BHU Varanasi, for the research guidance and moral support he has extended to me from time to time.

I am also indebted to Dr. G. Kesava Rao, Dean R & D of our college, who has devoted hours of meticulous reading to the editing of my drafts.

I would like to thank Dr. Y.P. Obulesh, Professor and Head, Department of EEE, Lakireddy Bali Reddy College of Engineering, for all timely support during the period of my thesis work.

I am thankful to Dr. L.S.S. Reddy, Director/ Principal, Lakireddy Bali Reddy College of Engineering, for extending his support during the course of thesis preparation.

Some colleagues and friends have been particularly kind in their willingness to impart ideas and information relevant to my research. Research of this kind could not have been completed without the assistance provided by the supporting staff of our college.

My deepest thanks goes to my parents, my dearest brother and my family for their support, understanding and patience. I would not have completed this thesis without them.

Finally, I would like to take this opportunity to thank all those people who have helped me directly or indirectly along the path to the completion of this research thesis.
