Acknowledgements

This thesis is the end of my journey in obtaining my Ph.D. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and various institutions. It gives me great pleasure in expressing my gratitude to all those people who have supported me and had their contributions in making this thesis possible. First and foremost, I must acknowledge and thank The Almighty for blessing, protecting and guiding me throughout this period. I could never have accomplished this without the faith I have in the Almighty.

I express my profound sense of reverence to my supervisor and promoter Dr. Sriram Seshadri, for his constant guidance, support, motivation and untiring help during the course of my Ph.D. His in-depth knowledge has been extremely beneficial for me. He has given me enough freedom during my research. Under his guidance I successfully overcame many difficulties and learned a lot. I am very much thankful to him for picking me up as a student at the critical stage of my Ph.D.

I am very much thankful to Prof. Sarat Kumar Dalai, Director (I/c), Institute of Science, for providing necessary infrastructure and resources to accomplish my research work. I am also indebted to Prof. G. Nareshkumar for his help, encouragement, and valuable technical expertise during my Ph.D work. His valuable advice, constructive criticism and extensive discussions helped me to achieve my goal.

I would also like to thank Prof. Sarita Gupta (Dept. of Biochemistry, M. S. University of Baroda) and Prof. Sailesh R. Dave (Dept of Microbiology, Gujarat University) for being the members of my thesis committee and for giving numerous helpful and productive advices throughout my study and experimental design. I would also like to thank all advisory committee member of Institute of Science (Prof. Santosh Kar (School of Biotechnology, Jawaharlal Nehru University), Prof. K. K. Rao (Dept. of Biosciences and Bioengineering, IIT, Bombay), and Prof. B. J.
Rao (Dept. of Biological Sciences, TIFR) for guidance at the beginning of this project work.

I would like to thank Prof. Marie Champomier verges (INRA, France), Prof. Ljubisa Topisirovic (University of Belgrade, Serbia), Prof. Ole Sorensen (Lund University, Sweden) and Dr. Jos Seegers (Lactrys, Netherlands), Gentic Stock Centre, Yale University, USA for gifting me plasmids and vectors for my molecular cloning work.

I would like to thank Dr. Ashima Bharadwaj (Indian Institute of Advance Research, Gandhinagar) for her support for Electroporation.

I gratefully acknowledge our faculty members for Dr. Sarika Sinha, Dr. Sonal Bakshi, Dr Shalini Rajkumar, Dr. Vijay Kothari, Dr. Nasreen Munshi, Dr. Milli Das and Dr. Amee Nair for their constant support and encouragement during Ph.D tenure.

I am thankful to one and all the research scholars of Institute of Science, Dr Prasant Jena, Dr Rahul Jog, Dr. Harshita Chaudhary, Dr. Bhavesh Kevadiya, Mahendrapalsingh Rajput, Maharshi Pandya, Kaveri Purandhar, Bhumika Prajapati, Parth Rajput, Bhagya Iyer, Manoj Patidar, Hardik Patel, Rajesh Parmar, Naveen Yadav, Aditi Mathur, Suhani Palkivala, Pulesh Kunwar and others for their support and pleasurable company and I wish them all the very best.

My heartiest thanks and gratitude to all non teaching staffs Sachin Prajapati, Rajendra Patel, Hashit Trivedi and Late Bharat Anand for their standing help and guidance in all the official matters.

I would like applaud my M. Sc. dissertation students, Mitali Buch, Hardik Goswami, Anita Saini, Jignesh K. Patel, Karishma Santani, Sonal Thakur for being a great helping hand all along and for creating a pleasant and scientific fun filled work environment.

Disha Trivedi
