 Acknowledgement

My thesis entitled "Evaluation of phytoremediation potential of Sesuvium portulacastrum and Tagetes patula for the degradation of textile dyes" is an outcome of my study for the completion of doctorial program. It was a formidable task, but the active, enthusiastic, supportive guidance and help from my tutors, research guide, both seniors and junior colleagues it resulted into a research project. It’s a pleasure to express my gratitude to all of them in my humble acknowledgement.

My novice knowledge of the practical world, would not have got me far in finalizing my thesis had it not been under the direction of nonetheless, Prof. (Mrs.) Jyoti P. Jadhav, who readily consented to be my research guide. Her constant encouragement, support, and invaluable suggestions made this work successful. Her patience, her vision and her attitude in making me carry out my research work independently with immense faith in me boosted my confidence and self esteem so much that it would stay with me through out my life.

In combination with the mentorship of my advisor, I am blessed to work with dynamic and intelligent personality Prof. V. A. Bapat. My utmost gratitude to him for his valuable guidance and suggestions throughout my work. I would like to mention my genuine thanks to Prof. S. P. Govindwar, Head, Department of Biochemistry, for his extensive help during this research.

I am indebted to my teachers from Department of Biochemistry: Dr. (Mrs.) A. U. Arvindekar, Dr. K. D. Sonawane, Dr. P. M. Gurav, Dr. (Mrs.) P.B. Dandage and Dr. J. S. Ghosh. I would also like to acknowledge my
teachers Mr. Suryawanshi from S. M. Lohia College, Kolhapur and Mr. L. G. Vitthalkar from The New College, Kolhapur for creating keen interest in subjects like Chemistry and Biochemistry in my years at college which made me today’s me …what I am.

I could not complete my work without invaluable assistance of Mr. R. J. Rane and all non teaching staff; their help has meant more to me. They deserve my sincere thanks.

I am grateful to all my senior, junior colleagues for their morale, help, feedbacks and for being great friends throughout and being great sources of laughter, joy and support for me throughout.

I wish to thank UGC SAP DRS Phase I for providing me a financial support.

Finally I accord my thanks and dedicate this work to my beloved mother and adorable father for their unusual degree of tolerance in pursuit of this work. I would specially thank my elder brother, Mr Sangram, sister-in-law Mrs. Smita who kept faith in me and who inspired all my professional ambitions with their love, support, and encouragement throughout my endeavour. The arrival of cute little niece Ms. Shourya blossomed the glory of my journey.

There are many known unknown people/groups that are involved in the completion of my Ph.D. that I would like to express heart felt thanks to all of them.

Asmita...
