ACKNOWLEDGMENTS

Whatever merits this thesis possesses lie with Dr. K. L. Handoo, M.Sc., Ph.D., F.I.C., C.Chem., F.R.I.C., Reader, Department of Chemistry, Kashmir University, Srinagar who spared time to share his insight and enthusiasm by rendering valuable guidance for purposeful criticism during the course of present investigation. I take this opportunity to pay my sincere gratitude to him for translating a nebulous concept into concrete reality.

I express my deep sense of gratitude to Prof. S. S. Nigam M. Sc. (All.). Ph.D. (Saugar), Ph.D. (London), D.I.C., F.R.S.C., F.n.A.Sc., Head of the Department of Chemistry and Dean, Faculty of Science, University of Saugar for providing me with all necessary facilities.

I am thankful to Prof. Asif-Uz-Zaman, M.Sc., Ph.D. (ERLANGEN, West Germany), Head of the Department of Chemistry Kashmir University, Srinagar, who with selfless interest accepted the thankless burden to solve the difficulties whichever cropped up during the period of investigation.

I am thankful to Dr. C. K. Jain, Assistant Professor, Govt. Home Science College, Bhopal for constant encouragement during the tenure of present work.

My thanks are also due to Dr. S. K. Srivastava, Lecturer in Chemistry, Dr. S. P. Srivastava, Lecturer in Chemistry, Dr. Savitri Devi Srivastava, Post-Doctoral fellow, Mr. Yogendra Bahadur, and Mr. S. K. Handoo for their cooperation rendered during the progress of this work.
A special mention has to be made of my sister Dr. (Mrs.) Rekha Dravid and my mother Smt. Shobhana Badwe for their constant encouragement during the tenure of this work.

I will be failing in my duties if I do not express my deepest sense of gratitude to my father Shri Anant Rao Badwe whose blessings are reflected in each and every page of this thesis.
