Acknowledgments

With immense pleasure, I would like to present this research work related to “Energy Efficient Routing with Effective Clustering Mechanisms in Wireless Sensor Networks” a fruit of labor. They say you need Gurus, Teachers, Mentors, Guides, Friends and Family to achieve success in life. I have all of them and more. My first and foremost thank to Almighty God, without heavenly blessings, it was impossible to complete this research work.

I would like to express my sincere gratitude to my guide, Dr Ketan Kotecha, Director, Institute of Technology, Nirma University for always motivated me forward and inspiring me to explore the unexplored. His guidance, motivation and inspirational words always help to understand things from different aspects that any researcher should know.

I would like to give my sincere thanks to my Research Progress Committee members, Dr Nikhil Kothari, Dr S N Pradhan and Dr N D Jotwani, for their valuable suggestions and comments to improve my work.

My sincere thanks to Dr Sanjay Garg, Head, Computer Science & Engineering Department, Institute of Technology, Nirma University and Prof D J Patel, former Head, Computer Science & Engineering Department, Institute of Technology, Nirma University for their kind support in all aspects.

My sincere thanks to Prof Sharada Valiveti, Associate Professor, Computer Science & Engineering Department, Institute of Technology, Nirma University and Dr Richa Mishra, Assistant Professor, Mathematics and Humanities Department, Institute of Technology, Nirma University for always ready with their pens to do revisions, editing and grammatical corrections on continual basis of the thesis.

My sincere thanks to all the faculty members and staff members for their support during this journey. My thanks to ever present Mr Praful Joshi and his team, specially Mr Prakash Khadaliya, Mr Rushikesh Raval and Ms Rinki Patel for providing timely support.

I would also express my sincere thanks to all the staff members of Library specially Ms Hiral Patel and Mr Sujal Soni for providing necessary support by disseminating articles and books as and when I required.
Last but not the least my heartiest thanks to my better half, Dr Jignasa Thakkar, who lived her dream in me. She sacrificed herself and supported me in a way only she can do, so that I can achieve my goals in stipulated time.

How can I forget my little champ, Master Maharshi Thakkar, who has sacrificed his time and affection that he wishes to enjoy with me.

I would like to give my heartfelt thanks to my parents, for their love and grounding they provided along with foundation of knowledge and fundamentals which helped me during this research work.

Mr Ankit Thakkar
