

## **ACKNOWLEDGEMENTS**

Success is like reaping the fruit of a seed you planted long ago. It is a combination of 3 P's Patience, Persistence, Perspiration and 3 D's, Direction, Determination and Dedication. With these seeds, I have been able to fulfill my vision successfully through continuous efforts and hard work. A journey is easier when you travel together. In this voyage of endless research and perseverance, there were many people who have sailed with me till the date. It is my sincere duty and pleasure to reminisce and acknowledge all of them who have helped me directly or indirectly for all sorts of assistance that they have offered to me during the course of my research in this prestigious Jawaharlal Nehru Technological University, Hyderabad.

First of all, I would like to place on record my hearty thanks and sincere gratitude to my supervisors, **Dr. S.F. Kodad** and **Dr. B. V. Sanker Ram** for their valuable guidance, constant encouragement, inspiration, motivation, suggestions from time to time. I am thankful to them for clearing all my doubts with keen interest and cooperation in the hour of difficulties. I also thank them for all sorts of help during the period of my research work.

Next, I would like to thank all the authorities, teaching and non-teaching faculties of Shirdi Sai College of Engineering, Bangalore and

HMS Institute of Technology, Tumkur for their timely support during the course of my research work.

My acknowledgement would be incomplete if I do not express my deep sense of gratitude to all my teachers till date, who have made me capable enough to come to this level and raise my head and look to the future.

Thanks to the patience and support from my beloved wife **Mrs. Usha Kusagur**, my children **Jayanth** and **Vaishnavi (Varsha)** who allowed me to slip away into the research for prolonged period. I owe them for providing me the encouragement and moral backing to complete the research with good publications. I thank my father **Sri. Siddappa** and my mother **Mrs. Jayamma** for all the sorts of help they offered.

My hearty thanks to the mighty ocean of all my friends, relatives and colleagues. Finally, I thank the almighty for bestowing me this opportunity and showering his blessings on me to come out successful against all odds. I bow my head with gratitude to salute this supreme power.

**Ashok Kusagur**

Professor, Department of ECE

HMS Institute of Technology
