ACKNOWLEDGEMENT

It gives me immense pleasure, in expressing, sense of sheer gratefulness and sincere appreciation, to my ever-regarded supervisor, Dr. D.K. TYAGI, Ex Reader & Head of Department of Chemistry, M.M. College, Modinagar for giving me the honour of undertaking my investigations under his able guidance and supervision, and for his highly indispensable help.

I would like to pay my profound gratitude to Dr. R.C. LAL, Principal M.M College, Modinagar and Dr. M.Q. Ansari, HOD, M.M. College, Modinagar for providing their invaluable and constant inspiration throughout during the completion of this thesis.

It is highly desirable to express my sincere thanks to Sri P.D. Sharma on whose guidance this piece of work was undertaken and completed.

I have no words to express my most sincere and heartiest sense of gratitude and indebtedness to my father-in-law Sri Satyapal Singh, and mother-in-law Smt Balesh for his co-operation and inspiration throughout the investigations.
Last but not the least, I express my deepest feelings to my Husband Mr. Sachin Singh for his cooperation and help without which this would have been quite difficult.

(MRS. ANJALI)
