Acknowledgement

My indebtedness remains to those who guided me, an courage me contributed me in any manner to shape my research work in the present form in thesis.

I am extremely grateful to my highly experienced, esteemed and learned supervisor, Dr. V.K. Sharma Reader and Head of Department in Mathematics, D.N.PG. College, Gulaothi Bulandshahar UP India, and who is very clear about the field of “Software reliability growth models”, which will provide a stimulating and challenging area for my research work both his guidance and support has been crucial for accomplishment of the thesis for Doctor of Philosophy (Ph.D) degree. For this sake, they devoted his valuable time in discussing the problems in depth and helping me all the time inspite of his very busy schedule. They also provided me with very valuable feedback during the final redaction of this thesis.

A sincere expression of thanks goes to my co-supervisor Dr. Ompal Singh Department of Operational Research University of Delhi, Delhi 110007 for his understanding and unfailing cooperation. He patiently provided the vision and advice necessary for me to go through the doctoral program and complete my work. He has been a strong and supportive adviser to me throughout my research career, but has always given me great freedom to pursue independent work. He taught me believe in myself always motivated me and trained me to cross any type of hurdles that lie in between me and my goal. He has contributed immensely to my personal and professional life.

At the same time, I wish to avail an opportunity to express my heartfelt thanks to Dr. M.P.S. Tomar, Principal of D.N.PG. College, Gulaothi Bulandshahar UP India,. I am obliged to all the teaching staff D.N.PG. College, Gulaothi Bulandshahar UP India, who taught me in the past their appreciation, support and knowledge have given me the strength for taking this challenge.

I am also thankful to the non- teaching staff of the D.N.PG. College, Gulaothi Bulandshahar UP India, for their indirect support.

I am immensely grateful to my senior, Dr. Jagvinder Singh, Assistant Professor Department of Mathematics, Maharaja Agrasen College, University of Delhi, Dr. Adarsh Anand Assistant Professor Department of Operational Research University of Delhi, Jyotish N.P. Singh, Department of operational research University of Delhi, Deepti Aggrawal, Department of Operational Research, University of Delhi. Dr. Mukesh Kumar, Department of Chemistry University of Delhi, Mr. Atul Tomar Department of Mathematics, D.N.PG.College, Gulaothi Bulandshahar UP India, Dr. Naveen Shingal, D.N.PG.College, Gulaothi Bulandshahar UP India, Dr. Vaibhav Jain Department of physics, D.A.V.PG College, Bulandshahar UP India, Dr. Pankaj Aggrawal, IIMT Engineering College Mavana Road Meerut, Dr. Brijesh Rathi, Department of Chemistry, University of Delhi, Dr. Yogesh Kumar and Mr. Indresh pachauri for their valuable advice, guidance, suggestion and encouragement throughout my research work.
I would like to thank UGC (University Grants Commission) for providing Rajiv Gandhi National Fellowship (RGNF) research fellowship during my initial period of research.

Undoubtedly, I owe a special debt of gratitude to my parents father Shri. Ramcharan Singh and Respected mother Smt. Chandra Devi. It was they with whom my learning process started nothing could have been possible without their blessings and faith in me their understanding and endless, love, during my studies has been motivating for me. I also want to thank my younger Brother Mr. Vijay Singh for his unconditional support during these challenging years. My gratitude also goes to my sister Suman, Rekha, and Rajnee kumari.

At last I thank almighty “GOD” for giving me the strength to complete this piece of work.

Indarpal Singh
(Research Scholar)
