I	Introduction	
1.1	Introduction	1
1.2	Concept of Job Satisfaction	1
1.3	Importance of Job Satisfaction	3
1.4	Theoretical Frameworks of Job Satisfaction	9
1.4.1	Framework One: Content Theories	9
1.4.2	Framework Two: Process Theories	11
1.4.3	Framework Three: Situational Models	14
1.5	Models of Job Satisfaction	14
1.6	Factors of Job Satisfaction	18
1.7	Hospitals in India	24
1.7.1	Changing Role of Hospitals	27
1.7.2	Hospital as a Social System	28
1.7.3	Intramural and Extramural Functions of Hospital	30
1.7.4	The Changing Scene in the Hospital Field	32
1.7.5	Urban Hospital Concentration	33
1.7.6	Preventive Medicine, Health Promotion and Hospitals	34
1.8	Health Expenditure in India	35
II	Review of Literature	43
III	Research Methodology	
3.1	Significance of study	68
3.2	Nature of the Study	68
3.2.1	Objectives of the study	68
3.2.2	Hypothesis of the study	69
3.3	Scope of study	69
3.4	Sample Size	70
3.5	Study tools	71
3.6	Reliability and Validity	74
3.7	Data Collection Procedures	76
3.8	Data Analysis tools	78

3.9	Organization of the study	80
3.10	Limitations of the study	80
IV	Demographic analysis of respondents	
4.1	Introduction	82
4.2	Demographic characteristics of sample under study	83
4.3	Association of demographic characteristics and satisfaction level	91
4.4	Association of demographic characteristics and satisfaction level of government and private Hospital	96
V	Comparative analysis of public and private hospital employees	
5.1	Introduction	106
5.2	Aspects of job satisfaction	107
VI	Categorical Classification of Employees	
6.1	Introduction	132
6.2	Classification of doctors	132
6.3	Classification of nurses	136
6.4	Classification of laboratory technicians	140
6.5	Classification of administrative staff	144
VII	Discussion	164
VIII	Findings, Suggestions and Conclusion	182
	BIBLIOGRAPHY	199
	ANNEXURE I	
	ANNEXURE II	

LIST OF TABLES:

Table No.	TITLE OF THE TABLE	Page No.
1.1	Hospital as a system	29
1.2	Intramural and extramural functions of a hospital	30
1.3	Percentage of GDP on health expenditure	35
1.4	Comparison with some emerging and developed economies	37
3.1	Cronbach alpha	74
4.1	Gender and category of the staff	83
4.2	Classification according to age	84
4.3	Classification according to education	85
4.4	Classification according to experience	87
4.5	Classification according to marital status	88
4.6	Classification according to the nature of job	89
4.7	Comparison of nature of job with institution	90
4.8	Association between gender and satisfaction level	91
4.9	Association between age and satisfaction level	91
4.10	Association between education and satisfaction level	92
4.11	Association between designation and satisfaction level	93
4.12	Association between experience and satisfaction level	93
4.13	Association between marital and satisfaction level	94
4.14	Association between job status and satisfaction level	95
4.15	Association between gender and satisfaction level	96
4.16	Association between job status and satisfaction level	96
4.17	Association between age and satisfaction level	98
4.18	Association between education and satisfaction level	99
4.19	Association between designation and satisfaction level	100
4.20	Association between experience and satisfaction level	101
4.21	Association between marital and satisfaction level	102
4.22	p value of demographic characteristics at a glance	104
4.23	p value of demographic characteristics of government and	104

private hospitals at a glance

5.1	Comparative analysis of ability utilization and type of institution	107
5.2	Comparative analysis of achievement and type of institution	108
5.3	Comparative analysis of activity and type of institution	109
5.4	Comparative analysis of advancement and type of institution	110
5.5	Comparative analysis of authority and type of institution	111
5.6	Comparative analysis of organizational policies and practices and type of institution	112
5.7	Comparative analysis of compensation and type of institution	113
5.8	Comparative analysis of co-workers and type of institution	114
5.9	Comparative analysis of creativity and type of institution	115
5.10	Comparative analysis of independence and type of institution	116
5.11	Comparative analysis of moral values and type of institution	117
5.12	Comparative analysis of recognition and type of institution	118
5.13	Comparative analysis of responsibility and type of institution	119
5.14	Comparative analysis of security and type of institution	120
5.15	Comparative analysis of social service and type of institution	121
5.16	Comparative analysis of social status and type of institution	122
5.17	Comparative analysis of supervision-human relations and type of institution	123
5.18	Comparative analysis of supervision-technical and type of institution	124
5.19	Comparative analysis of variety and type of institution	125
5.20	Comparative analysis of working conditions and type of institution	126
5.21	Comparative analysis of general satisfaction and type of institution	127
5.22	Scores on MSQ and type of institution	128
5.23	General satisfaction	129
5.24	p value of different aspects of job satisfaction at a glance	130

6.1	Association of demographic characteristics with satisfaction level of study doctors	132
6.2	Different aspects of job satisfaction and satisfaction level of doctors	134
6.3	Association of demographic characteristics with satisfaction level of Nurses	136
6.4	Different aspects of job satisfaction and satisfaction level of nurses	138
6.5	Association of demographic characteristics with satisfaction level of study laboratory technicians	140
6.6	Different aspects of job satisfaction and satisfaction level of laboratory technicians	142
6.7	Association of demographic characteristics with satisfaction level of study administrative staff	144
6.8	Different aspects of job satisfaction and satisfaction level of administrative staff	145
6.9	KMO and Bartlett's Test	148
6.10	Measure of sampling adequacy and anti-image correlations between factors	149
6.11	Initial eigenvalues, Percentages of variance, Extraction sums of squared loadings, and Rotation sums of squared loadings for MSQ scales	150
6.12	Rotated component matrix, Communalities, Contribution of components, and Proportion of common variance of each component	151
6.13	Model summary	154
6.14	ANOVA	155
6.15	Job satisfaction factors statistics	
6.16	Model fit summary	158
6.17	MSQ scales intercorrelations	162

LIST OF FIGURES:

Figure No.	TITLE OF THE FIGURE	Page No.
1.1	Maslow's and Herzberg's Ideas compared	11
1.2	Expectancy theory	12
1.3	Porter and Lawler motivation model	13
1.4	Job Characteristics Model	16
1.5	Guidelines for enriching job	20
6.1	Path diagram	156
6.2	Job satisfaction model	160

LIST OF GRAPHS:

Graph No.	TITLE OF THE GRAPH	Page No.
4.1	Gender and category of the staff	83
4.2	Classification according to age	85
4.3	Classification according to education	86
4.4	Classification according to marital status	88
4.5	Classification according to the nature of job	89
6.1	Scree Plot	153
