ACKNOWLEDGEMENT

This thesis would be incomplete without acknowledging the guidance, inspiration and support provided by so many in many different ways. Dr. R.B. Patel is my guide and mentor in many ways. He has been a constant source of inspiration. During his stay abroad in South Africa and U.S.A. he kept inquiring about the progress of the research. He chose to comeback to India to ensure that I submit my thesis during his short stay in the country.

I am grateful to Mr. N.I. Dani, Principal, M.G. Science Institute, who generously provided facilities and support for my research and encouraged my efforts towards the completion of the thesis. I am grateful to the entire department of Microbiology of M.G. Science Institute, including Mrs. Uma Desai, Dr. V.R. Mistry, Mr. R.C. Dave, Mrs. Urmila Kachar, Mrs. Sneha Pandya, Mrs. Anoopama Kollali, Mr. Mrugesh Shukla, Dr. Vivek Upasni, Mr. R.I. Shah, Mr. B.M. Patel, Mr. J.C. Prajapati and other staff members. I am specially thankful to Mrs. Uma Desai who painstakingly read the manuscript and provided excellent editorship, Mr. M.D. Shukla for his help in collecting informations, Dr. Vivek Upasni who provided valuable suggestions and Mr. B.M. Patel, Laboratory Assistant, who ensured that the appropriate temperature, humidity and relevant conditions were maintained in the cropping rooms. He was the real Man
Friday. He undertook upon himself the responsibility for assisting in all my practical work, beyond the call of his duty, without his help I would have been severely handicapped. I am thankful to Mr. S.M. Patel, Head, Department of Statistics, Mr. Y.M. Mehta, Head, Department of Mathematics, Mr. P.J. Jha, Department of Mathematics of M.G. Science Institute and Mr. Ajay Shah and Dr. (Ms) Veena Vani, Professor of Statistics IRMA, who all have provided support and help in the statistical analysis of data.

Dr. S.R. Dave, Head, Department of Microbiology, Gujarat University deserves my special thanks. He always found time for me from his scholarly pursuits to minutely go through my work. He never let me feel the absence of my guide and improved the structure and contents of my thesis. Dr. S.G. Desai and Dr. N.K. Yadav, former Heads of the Department of Microbiology of the Gujarat University provided inspiration and help in the research work, I am thankful to them. I am also thankful to Dr. O.P. Saxena, Dr. A.B. Vora and Dr. (Miss) Alka Vyas (Department of Botany, Gujarat University) for their help.

Dr. S.R. Sharma, Scientist-in-charge of the National Centre for Mushroom Research and Training (NCMRT) provided seven different cultures of Pleurotus species to enable me carry out comparative study of these species in Gujarat. He also provided systematic and detailed guidelines for planning my research project. Dr. Sharma's guidelines were
not only endorsed but also reinforced by the entire Scientific Community of the NCMRT which included Dr. B.L. Dhar, Dr. R.C. Upadhyay, Dr. R.D. Rai, Dr. S. Saxena, Dr. (Ms) Kiran Thakur (Mehta), Dr. B. Vijay, Dr. (Ms) Yash Gupta. I am specially thankful to Dr. B.L. Dhar who went through the synopsis and provided relevant informations. He went out of his way to help me in my work. My special thanks also go to Dr. (Ms) Kiran Thakur, who was always available for help during my stay at NCMRT, Solan.

Dr. (Mrs) Anila Doshi (Rajasthan College of Agriculture, Udaipur), Dr. H.C. Dube (Dept. of Life Sciences, Bhavnagar University) and Dr. R.P. Tewari and Ms. Meera Pandya (Institute of Horticultural Research, Bangalore), constantly updated my information and provided valuable guidance. I am thankful to all of them.

Dr. S.M. Kumar (Krishi Vigyan Kendra, Badgaon), Dr. H.S. Garcha (Punjab Agricultural University, Ludhiana), Dr. Anupam Verma and Dr. Nita Bhal (Indian Agricultural Research Institute, New Delhi), Dr. C.L. Chadha (Indian Council of Agricultural Research, New Delhi) have provided informations and guidelines. I am thankful to all of them.

Dr. H.A. Modi (Sir P.T. Arts and Science College, Godhra), provided culture of Actinomycetes. I am greatful to him. I am also thankful to Dr. Ajeet Menon, Dr. P.J. Trivedi, Miss Heta Patwa, Mr. Bansidhar Shukla, Mr. M.I. Pathan, Ms. Smruti Pandya and Mr. P.S. Dholakia for their
help in preparing the thesis.

The doyens in the field of mushroom cultivation in the international arena also provided information and help whenever requested for. I am indeed thankful to Dr. S.T. Chang (Chinese University, Hongkong), Dr. T.H. Quimio (University of Phillipines), Dr. R.H. Kurtzman (California, USA) and Dr. Hayes (Bermingham, England).

A large number of Libraries lent their support to me during my research. I am specially thankful to Librarians of M.G. Science Institute, NCMRT, Gujarat University, Indian Institute of Management, Ahmedabad, British Library, Sardar Patel Institute of Economics and Institute of Hotel Management, Ahmedabad.

I am thankful to all my family members, who were always willing to help and assist specially during the period of writing the thesis. I am specially thankful to Dr. Zafar Rafique who helped me provide information from Rajasthan University, Mrs. Abida Hoque who used internet to provide reference material, Mrs. Zarin and M/s. Imtiyaz, Faruk, Salim, Khalid and Shujaat who have helped me till the completion of the project. I am extremely thankful to my children who on many occasions felt neglected and even abandoned. Thank you Ghazal and Yasser.

Aysha Nasir Rafique
