LIST OF TABLES

1.1. World Reserves and Production of Tungsten.
1.2. Reserves of Tungsten Ores in India.
1.4. Production of Tungsten Metal in India.
2.1. Summarised Regional Geological Sequences in Rajasthan.
2.2. Revised Lithostratigraphic Succession of the Pre-Cambrian Rocks of Rajasthan and Gujarat.
2.3. Stratigraphic Succession of Sirohi State.
2.4. Stratigraphic Succession of Balda Tungsten Deposit, Sirohi, Rajasthan.
2.5. Structural Succession.
3.1. Model Analysis
3.2. Characters of Fluid Inclusion Mineralized and Nonmineralized Quartz Veins.
3.3. Analysis of Wolframite Samples.
4.1. Details of Samples.
4.2. Analytical Methods.
4.3a. Oxide Analyses of Erinpura Granite.
4.3b. Oxide Analyses of Balda Granite.
4.4. Average Values of Different Granites.
4.5. Trace Element Contents of Schist/Phyllite. (Rocks of Delhi Supergroup)

4.6. Trace Element Analysis of Erinpura Granite of Balda Area.

4.7. Trace Elements of Balda Granite.

4.8. Comparative Study of Trace Elements in Rocks of Balda Tungsten Deposit Area.

4.9. Abundance (or range) of Trace Elements in some Rocks of Earth's Crust.

4.10. Trace Analysis of Selective Samples (Chip-Channel Samples Across Quartz Veins of Shear Zone).

4.12. Trace Element Analysis of Soil Samples (Samples Collected During Reconnaissance Survey of -60 Mesh Fraction).

4.12a. Concentration of Trace Elements in Soil Samples.

4.12b. Statistical Analysis of Analytical Results of Surface Soil Samples.

4.13. Distribution of Profile Samples.

4.14a. Analytical Results of Sub-Surface Water Samples.

4.14b. Summarised Analytical Results of Water Samples.

4.15. Result of Trace Element Analysis of Stream Sediment Samples (-60 mesh size fraction). (Samples Collected During Reconnaissance Survey).

4.16. Analysis of Stream Sediments Samples of Drainage Basin.
4.17. Data Analysis of Trace Element Contents of Stream Sediment Sample of Reconnaissance Study.

4.18. Data Analysis of all Stream Sediments Samples of Drainage Basin.

4.20. Distribution of Average Element Contents in Different Size Fraction of Stream Sediments in 'First' Order Streams.

4.21. Distribution of Average Element Content in Different Size Fraction of Stream Sediments in 'Second' Order Streams.

4.22. Type and Abundance of Plants Found in Balda Tungsten Deposit Area.

4.23. Results of Trace Elements Analysis of Plant Ash of Kikar (Acacia arabica) Plant.

4.24. Trace Element Content of Plant Ash, Kikar (Acacia arabica) and Awal (Cassia auriculata) Plants.

4.25. Results of Microbiological Screening.
