Acknowledgements

I express my deep sense of gratitude to Professor Dr. R.B. Patel, Principal, M.G. Science Institute for providing me with immense foster help to pursue my research.

My sincere avocations are due to Professor A.B. Vora, Head of the Botany Department, University School of Sciences for ample freedom he offered to me for my laboratory work.

My humble reverence remains to my guiding teacher, Dr. Sushila L. Dalal, the then Head of the Chemistry Department, M.G. Science Institute, under whose inspiring frankness and day to day deliberations, my work saw the light of the day.

I offer my thanks to Dr. N.A. Patel, Head of the Chemistry department, M.G. Science Institute for encouragement throughout the course of this work.

I was helped in the preparation of graphs on computer by Mr. Rajal Dalal, Managing Director and Prakash Shah of Diamond Crucible Company Ltd. Mehsana, Gujarat.

I am sincerely thankful to Dr. N.E. Dweltz, Deputy Director, Mr. P.J. Bose, Physics Department of ATIRA; Dr. J.N. Goswami, Incharge SEM and Mr. V.G. Shah of the Physical Research Laboratory for providing me with the scanning electron microscope and to prepare the stubs and the micrographs; Dr. V.C. Patel, Head of the Chemistry Department, Vallabhbh Vidyanagar for his incessant help in IR Spectroscopy, Dr. Dinesh J. Parikh, Assistant Director, Hygiene Department, Mr. N.G. Sathwara, Assistant Research Officer of the National Institute of Occupational Health for their help in atomic
absorption spectroscopy.

Among those whom I owe a special debt for constructive encouragement and co-operation are, Dr. C.G. Dave, Assistant Director, Loyola centre for R and D, St. Xavier's college, Miss K. Saroja, research colleague and all my colleagues of the Chemistry Department.

I would also express affections to my wife Mrs. Kusum Shah and children Palak and Parth for their unfailing forbearance and patience during my work.

I will be failing in my duty if I do not fervour the ecclesiastical edifice of pollen erected by Dr. C. K. Shah.

(P.N. Shah)
