Acknowledgement

*God help those, who help themselves*

Research is a continuous process ever since the earth has taken birth and a man emerged on it. It can never be an outcome of an individual’s talent or efforts. Today, at the acme of my presentation, I gratefully remember my parents, teachers, colleagues, friends and well wishers. As one flower cannot make garland, this effort not have taken shape without whole hearted encouragement, support and live involvement of all above.

It is with great pleasure and profound sense of reverence towards my esteemed guide and preceptor, Dr. P. K. Patel, Ph.D., F.I.C., F.I.C.S., F.I.C.C. for his erudite guidance, timely suggestions and critical remarks throughout the span of my work. This work would have been impossible without his understanding, exemplary punctuality and perfection. All the time he made available to me for discussion and clarification. It is with to him and his astounding dedication often for beyond the call of duty.

I am highly thankful to Ahmedabad Education Society (AES), The Principal Dr. B. K. Jain and Head of the Chemistry Department Dr. P. N. Shah for providing me the laboratory, library and computer facility at the college for conducting this work.
I take this opportunity to express my thanks to Dr. B.B Baldaniya, Mr. P. D. Patel, Mr. D. I. Prajapati, and other teaching and non-teaching staff members encouraged me to fulfill this endeavor.

I acknowledge timely help and support extended by SUN PHARMACEUTICAL ADVANCED RESEARCH CENTR for present work.

I highly thankful to Mahendra Patel, Hema Patel and Family members for providing great support during the Paper presentation in PITTOCN 2007 at Chicago, USA.

Last but not the least I pay reverence to the SUPREME power GOD who blessed me for completing my work.
