List of Tables, Graphs, Charts and Maps

Chapter : 1 Agro-Economic Profile for Food vs. Non-food Crops

List of Tables :

1. World Rice Production 2
2. Production and percent share of major rice producing countries in the world (TE 1989-90) 3
3. Production and percent share of major wheat producing countries in the world (TE 1989-90) 5
4. World production of groundnut (TE-1989-90) 7
5. Distribution of area under principal crops in India, 1949-50 to 1987-88 9
6. Statewise area, production and yield of rice 10
7. All India area, production and yield of rice 12
8. Rice Exports 15
9. Statewise area, production and yield of wheat 19
10. All India area, production and yield of wheat 20
12. Wheat production, arrivals and procurement in Punjab 22
13. Minimum support price of wheat (Rs. per quintal) 22
15. Statewise area, production and yield of groundnut 26
16. All India area, production and yield of groundnut 28
17. Statewise production and availability of groundnut (lakh tons) 29
18. India's Exports of HPS groundnuts 29
19. India's countrywise Exports of groundnuts in 1992-93 30
20. India's countrywise Exports of groundnuts Extractions in 1992-93 30
21. World production of groundnut (1989-90) 33
22. Cottonseed Availability in various states in 1992-93 36
23. Production of cottonseed in India (in m.t.) 36
24. Exports of cottonseed Extractions 37
25. India's countrywise Exports of cottonseed Extractions in 1992-93 37

List of Maps :

1. Major Rice Producing States 11
2. Major Wheat Producing States 21
3. Major Groundnut Producing States 27
4. Major Cotton Producing States 35

Chapter : 2 Survey of Existing Literature

List of Tables :

1. Bird's-eye-view of 72 Production Function Studies on Indian Agriculture (i) 59
Chapter : 4 Agro-climatic Profile : Zones and Subzones of India

ANDHRA PRADESH

1. Socio-economic Indicators .................................................. 119
2. Regions of Andhra Pradesh .................................................. 121
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change ...................... 121
4. Cropping pattern for TE 1994-95 and decadal change in subregions .................................... 123
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes ......................... 125
6. Percentage share of area and production of selected crops by subregions (TE -1994) ............ 125
7. Livestock composition (percent), Census 1992 ........................................ 126

GUJARAT

1. Socio-economic Indicators .................................................. 127
2. Regions of Gujarat ............................................................. 128
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change ...................... 129
4. Cropping pattern for TE 1994-95 and decadal change in subregions .................................... 130
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes ......................... 131
6. Percentage share of area and production of selected crops by subregions (TE -1994) ............ 132
7. Livestock composition (percent), Census 1992 ........................................ 133

HARYANA

1. Socio-economic Indicators .................................................. 133
2. Regions of Haryana ............................................................. 134
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change ...................... 134
4. Cropping pattern for TE 1994-95 and decadal change in subregions .................................... 136
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes ......................... 137
6. Percentage share of area and production of selected crops by subregions (TE -1994) ............ 138
7. Livestock composition (percent), Census 1992 ........................................ 139

KARNATAKA

1. Socio-economic Indicators .................................................. 139
2. Regions of Karnataka ............................................................. 140
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change ...................... 141
4. Cropping pattern for TE 1994-95 and decadal change in subregions .................................... 142

(ii)
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

MADHYA PRADESH
1. Socio-economic Indicators
2. Regions of Madhya Pradesh
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change
4. Cropping pattern for TE 1994-95 and decadal change in subregions
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

TAMIL NADU
1. Socio-economic Indicators
2. Regions of Tamil Nadu
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change
4. Cropping pattern for TE 1994-95 and decadal change in subregions
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

UTTAR PRADESH
1. Socio-economic Indicators
2. Regions of Uttar Pradesh
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change
4. Cropping pattern for TE 1994-95 and decadal change in subregions
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

PUNJAB
1. Socio-economic Indicators
2. Regions of Punjab

(iii)
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change
4. Cropping pattern for TE 1994-95 and decadal change in subregions
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

MAHARASHTRA
1. Socio-economic Indicators
2. Regions of Maharashtra
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change
4. Cropping pattern for TE 1994-95 and decadal change in subregions
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

WEST BENGAL
1. Socio-economic Indicators
2. Regions of West Bengal
3. Landuse, Irrigation and Fertilizer use by subregions for TE 1994-95 and decadal change
4. Cropping pattern for TE 1994-95 and decadal change in subregions
5. Area and production by crops/crop groups for TE 1994-95 and decadal changes
6. Percentage share of area and production of selected crops by subregions (TE -1994)
7. Livestock composition (percent), Census 1992

List of Maps:
1. Agro-climatic Subregions of Andhra Pradesh
2. Agro-climatic Subregions of Gujarat
3. Agro-climatic Subregions of Haryana
4. Agro-climatic Subregions of Karnataka
5. Agro-climatic Subregions of Madhya Pradesh
6. Agro-climatic Subregions of Tamil Nadu
7. Agro-climatic Subregions of Uttar Pradesh
8. Agro-climatic Subregions of Punjab
9. Agro-climatic Subregions of Maharashtra
10. Agro-climatic Subregions of West Bengal
Chapter : 5 Production Function - A Measuring Tool of Productivity and Returns-to-scale

List of Tables:

1. Values of R^2 (in Percent) at All India Level 191
2. Regression output of CD Model for rice 192
3. Regression output of CD Model for wheat 193
4. Regression output of CD Model for groundnut 194
5. Regression output of CD Model for cotton 195
6. Cropwise major selected subregions for each crop 197
7. Regression output of rice for major selected subregions 198
8. Regression output of wheat for major selected subregions 200
9. Regression output of groundnut for major selected subregions 202
10. Regression output of cotton for major selected subregions 204

List of Graphs:

1. Output Representation at Subregional Level for rice 199
2. Output Representation at Subregional Level for wheat 201
3. Output Representation at Subregional Level for groundnut 203
4. Output Representation at Subregional Level for cotton 205

Chapter : 6 Efficiency Measurements Using Production Frontier

List of Tables:

1. Cropwise Deterministic Frontier Estimates 225
2. Cropwise Technical Efficiency Rankings by COLS Method at Subregional Level 226
3. Subregionwise Actual and Estimated output of rice 227
4. Subregionwise Actual and Estimated output of wheat 228
5. Subregionwise Actual and Estimated output of groundnut 228
6. Subregionwise Actual and Estimated output of cotton 228
7. Subregionwise Technical Efficiency Measurements for rice 229
8. Subregionwise Technical Efficiency Measurements for wheat 229
9. Subregionwise Technical Efficiency Measurements for groundnut 230
10. Subregionwise Technical Efficiency Measurements for cotton 230

List of Charts:

1. Subregionwise Actual and Estimated output of rice 231
2. Subregionwise Actual and Estimated output of wheat 232
3. Subregionwise Actual and Estimated output of groundnut 233
4. Subregionwise Actual and Estimated output of cotton 234
