Dedicated to my Parents
Life is like a ten-speed bicycle. Most of us have gears we never use. Dr. Anita Mehta was the one who made me to use it. Her caring nature helped me lot during failure of my research work.

I am also indebted to Dr. Sunita Goswami, Dr. Mamta Shah and Dr. Parloop Bhatt for their help and advice during my research work.

I thank Dr. M. T. Chhabria, Assistant Professor, Department of Pharmaceutical Chemistry (P.G.), Dr. B. N. Suhagia, Professor and Head, Department of Pharmaceutical Chemistry, J. S. Rathod Assistant Professor, Department of Quality Assurance, L. M. College of Pharmacy, for their support and help, as and when required.

I will miss my duties if I forget to thank Dr. Sudarsanam, an Emeritus Scientist at B.V. Patel PERD Centre, Ahmedabad for his valuable suggestion and help during the course of my work.

No one can forget his/her past. I can never forget those moments that I spent with my M. Pharm guide Dr. S. B. Kasture who sharpened my knowledge of pharmacology as well as phytochemistry.

A special thanks to Prof. Fumihiko Yoshizaki, Tohoku Pharmaceutical University, Sendai Japan for providing a gift sample of Swertia marian.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of some persons who were always there when I really needed someone by my side. 2001 M. Pharm Batch Dashang Prajapati, Mitesh Gandhi, Payal Shah, Lakshmi Iyer, Bhavana Patel. 2002 M. Pharm Batch Prakash Patel, Sanjay Akhani, Bharat Suthar, Rajesh Dadhania, Ashutosh Jani, Jignesh Patel, Kanan Mehta, 2003 M. Pharm Batch Ketan Modi, Shital Panchal, Dhavanit Shah, Sangita Iyer, Vaibhav Shah, Yogendra Solanki, Asha Naik.

My Friends at PERD CENTRE Milind Bagul from whom I learnt HPTLC, Srinivasa, Franklin, Sachin Pathak, Prashanth, Swapnil, Nirajan Kanakji from whom I learnt microscopy, and Sonia from whom I learnt Western Blotting are such rare names. Their emergent helps are indefinable. They share a very important part of my life as well as my project work. They all gave me feeling of being at home at work. Dharmesh Makwana, Prakash Patel, Amit Anam, Ghanshyam Goswami, Dashang Prajapati, Mitesh Gandhi, Shailesh Sharma, Ketan Modi and Payal Shah are friend for lifetime, a glorious example of true friends. I remember there togetherness in most of my real tough times. I have called them anytime and they were present soon. They have
been with me all nights and days to manicure the thesis with colours. How can I forget Nehal Bhatt, Mitesh Jani, and Chetan Patel they are friend for forever, best friends. With their continuous help and humour I have been able to complete this thesis.

With a deep sense of appreciation, I thank my Seniors Shrinivas Savle, Dhananjay Umran, Urmila Shinde, Vikas Shirsat, Preeti, Ravi Shankara and colleague Sanjay Kadiyo for help and co-operation. I can’t forget golden moments shared with my seniors substantially contributed to the development of this work. Especially the strict and extensive comments and the many discussion and the interactions with all of them have a direct impact on the final form and quality of this thesis.

It gives me immense pleasure to thank Nilay Goyal, Chirag Patel and Bhoomika Goyal for their unfailing support. It is hard to forget there company.

It gives me immense pleasure to thank Praful Gadhave for providing the authentic sample of Enicostemma littorale and Ghanshyam Goswami (Mama), for his unfailing support, because of whom I am able to type the thesis.

I thanked Chetanben, Krishnabhai, and Shivabhai for their help. I also thank Sanjaybhai, Bharatbhai and Joshikag, Chirag Bhai, Chavada Sir, and Mehta Sir for helping and co-operation to me.

The chain of my gratitude would be definitely incomplete if I would forget to thank all my home town friends Sandeep Jaltare, Sachin Jaltare, Aishok Vishwakarma, Sachin Dinde, Ketan Deshmukh, Yogesh Jagzap, Anil Gaikwad, Ujwal Kolhe, Makrand Karekar.

It is very difficult to express my feeling for my "PARENTS", my Sisters, Bhaiya, Bhabhi and Mrs Shakun R. Goyal. They have constantly motivated me for my work. Their support and encouragement with their endless cheering have led to the successful completion of my research work. All I know is that without their care and faith in me, it was impossible for me to reach at this stage of my life.

As always it is impossible to mention everybody who had an impact to this work. I want to thank all great people who taught me how to think in a global way.

October, 2003

Santosh Vishwakarma
