**Contents**

Chapter 5  Medicinal applications and conclusions  188-217

Medicinal applications and conclusions

5.1 *In vitro* Antioxidant activity of the extract and isolated Compounds  189

5.1.1 Total phenolic content & total flavonoid Content  189

5.1.2 DPPH radical scavenging assay  190

5.1.3 β- Carotene bleaching effect  192

5.1.4 \( \text{H}_2\text{O}_2 \) Scavenging Activity  193

5.1.5 Reducing Power  196

5.1 Antimicrobial activity of the extracts and isolated Compounds  198-208

5.3 Conclusion  209-217
