I have worked with a great number of people whose contribution in assorted ways to the research and the making of the thesis deserves special mention. It is a pleasure to convey my gratitude to them in my humble acknowledgment.

In the first place I would like to record my gratitude to my Guide, Dr. P. Venkatachalam for his supervision, advice and guidance from the very early stage of this research as well as giving me an extraordinary experience through the course of this work. Above all, he provided me unflinching encouragement and support in various ways. His truly scientist intuition and passion to science has made him a constant oasis of ideas, which exceptionally inspire and enrich my growth as a student and a researcher. I am indebted to him more than he knows.

I gratefully acknowledge Dr. Solomon F.D Paul for his advice and supervision. His involvement has nourished my intellectual maturity that I will benefit from, for a long time to come.

Besides my advisor, I would like to thank my research advisory committee: Prof. Rajendiran and Dr. Chandra for their encouragement, insightful comments, and hard questions. I am grateful to Dr. S.P. Thyagarajan for giving me the opportunity to utilize the equipment at the Central Instrumentation Facility.

Many thanks go in particular to Dr. V. Vettriselvi, Ms. Teena Koshy and Dr. Harpreet Kaur. I am much indebted to them for their valuable advice and willingness to share her bright thoughts with me, which was very fruitful for shaping up my ideas and research.
It is a pleasure to pay tribute also to the sample collaborators at the Department of Hematology, Government General Hospital, Chennai. I would like to acknowledge Dr. Margaret, Head of the department, Dr. Usha Nair and Dr. Karthik for helping me out in the sample collection. I am thankful to the Director of Medical Education, Government of Tamil Nadu for permitting me to collect samples from Government General Hospital. Also I gratefully acknowledge the Institutional Ethical Committee for approving my study.

I convey special acknowledgement to Ms. Raheema, Ms. Swarna, Ms. Vandana, Ms. Vineeta, Ms. Vaishnavee, Ms. Litty and Ms. Mohan Priya for their indispensable help.

Collective and individual acknowledgments are also owed to my Professors and colleagues at the department of Human Genetics.

My friends and family deserve special mention for their support and prayers. Words fail me to express my appreciation to my wife, Dr. Kotamma Venkateswaran, whose patience, love and persistent confidence in me, has taken the load off my shoulder.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.
