ACKNOWLEDGMENTS

I would like to express my heartfelt thanks to Dr. L.K. Arora, Professor, Department of Mathematics, NERIST, Arunachal Pradesh, for his ungrudging help, guidance, constant inspiration and meritorious discussions through the course of the present investigations.

My deep and sincere thanks to Dr. S.K. Pandey, Professor and Head of the Department of Mathematics, NERIST, for his constant encouragement and cooperation during my research period. I am also thankful to Prof. J. Choubey, Prof. P.K. Das and all the staff members of Department of Mathematics for their encouragement during the entire research work.

I am highly indebted and grateful to Mr. Pranab Kishore Dutta, Mrs. Purabi Dutta and my respected parents for their valuable moral support and all other help while preparing the thesis. I also express my deep sense of love to little Aarit. They have been a real source of inspiration in accomplishing my work. There is no such word to thank them for what they have given me.

A special thanks to my best friend Mr. Jayanta Borah and Mrs. Jayashree Dutta Borah for their cheerful support and my deep sense of gratitude to Dr. U.K. Saha, Dr. K.R. Singh, Dr. J. Mahanta, W.W. Chanu, D. Eshi, R. Buragohain, K. Tamang and D.J. Mahanta for their support, cooperation and valuable discussions during the preparation of the thesis.

Last, but not the least, with all my heart and soul, I would like to thank those unseen hands behind my research work that will never be known to anyone except me.
