SUMMARY OF THE THESIS

Chapter 1 which covers research rationale of the study, background, problem statement, research problem, Brief Methodology, scope of the study and Organization of the thesis.

Chapter 2 Covers the literature review, To Learn from the Existing Researchers about the Definition, Evolution, ETs, Development, Use, User, Problems, Prospects of e-Learning.

Chapter 3 Describe the Profile of the cities. In which, History of the city, Population, Education System content comes under these profile.

Chapter 4: Covers a description of E-Learning experiences & Paradigm shifts. eLearning in Advanced Countries, E-Learning in Developing Countries, E-Learning in India points are covered.

Chapter 5: Covers a description of research methodology for secondary and primary research; aims and objectives of research, hypotheses formulation, sampling process and data collection and analysis techniques and limitations encountered during the research.

Chapter 6: Covers the data analysis and hypothesis testing from the primary data.

Chapter 7: Covers findings and conclusion of the study for the research work.

Chapter 8: Covers the recommendations, limitations and scope for further study.
