ACKNOWLEDGEMENTS

It would be impossible to acknowledge adequately all the persons who have helped me directly or indirectly during my tenure as a Ph.D. student. Nevertheless, certain persons who have given generously their time and efforts deserve my explicit thanks.

I take the opportunity to express my deep gratitude to Prof. K.M. Kotadia who introduced me into the field and guided the whole work with constructive criticisms and unending inspiration. I learnt a good deal from his association.

I wish to express my grateful thanks to the Scientists of the Academy of Sciences, Berlin, German Democratic Republic and in particular to Prof. E.A. Lauter, Prof. J. Taubenheim and Mr. H. Kober who extended their valuable co-operation in setting up our project on Multifrequency Ionospheric Absorption.
The author expresses his sincere thanks to Prof. P.D. Pathak, Ex-Head of the Dept. of Physics and Prof. S.D. Verma, present Head of the Department, for giving necessary facilities to carry out the research work. I am grateful to the Director, Physical Research Laboratory, Ahmedabad for kindly allowing me to make use of the library and computer facilities. I express my deep gratitude to Dr. J.S. Shirke, Mr. S.N. Pradhan, Mrs. Gopa Datta, Mr. C.S.R. Murty and Dr. K.S. Rao for lively discussions and helpful co-operations.

My thanks go to all the members of our group, particularly to Dr. J.C. Patel, Dr. G.M. Chhipa, Dr. Mrs. N.R. Almeula, Mr. R.M. Kotak and Dr. K.G. Jani for their help in the smooth running of the project.

I express a deep sense of appreciation to Mr. M.M. Panchal who typed the thesis in an efficient and enjoyable manner. Mr. G.G. Mehta and other office-staff were always very co-operative in the day-to-day requirements of my work.
To my brothers, Mr. D.C. Biswas and Mrs. Bandita Datta especially, who consistently encouraged and consoled in my efforts, my words fail to acknowledge my deep gratitude.

I should express my thanks to the Council of Scientific & Industrial Research and University Grants Commission, Government of India, New Delhi, for financial support in the form of research fellowship grants to help carry out this scientific investigation.

Whatever value this work may have, it must be attributed to my mother who stayed by my side leaving all her comforts to keep me going at this crucial juncture in my life, to achieve a triumph, however minor it might be in its absolute evaluation.
