ACKNOWLEDGEMENTS

I sincerely express my gratefulness to Prof. (Retired) A.B. Vora, Department of Botany, School of Sciences, Gujarat University, Ahmedabad for his guidance, keen interest, suggestions and perpetual encouragement during the course of present work. I am also highly thankful to Dr. O.P. Saxena, Professor and Head, Department of Botany, University School of Sciences, Gujarat University, Ahmedabad for his keen interest and encouragement in carrying out the work.

I express my gratitude to Dr. R.R. Navalgund, Dy. Director, Remote Sensing Applications Area, Space Applications Centre (ISRO), Ahmedabad for his suggestions, encouragement and for providing necessary facilities. Sincere thanks are also due to Shri A.K.S. Gopalan, Director, Space Applications Centre (ISRO), Ahmedabad and Dr. George Joseph, former Director SAC and presently Distinguished ISRO Professor for granting permission to pursue Ph. D. and for constant encouragement. My sincere thanks are also due to Dr. Ajai, Group Director, Forestry, Land use and Photogrammetry Group for motivation and suggestions. Thanks are also due to Dr. R.N. Jadhav, Head Forestry and Environment Division for discussions and support.

Inventory part of the work was carried out during the tenure of the project on Nation-wide Wetland Mapping sponsored by the Ministry of Environment and Forests, Govt. of India. The project was coordinated by me as Project Manager on behalf of Space Applications Centre (ISRO), Ahmedabad for the entire country. I am highly obliged to the Ministry of Environment and Forests for funding the project. I am grateful to Prof. (Ms) Anjana Vyas, School of Planning, Ahmedabad for her help and discussions during the course of study for Gujarat.
My interest in wetlands dates back to 1973 when Prof. (Late) Y. S. Murty, the then Head, Botany Department, Institute of Advanced studies, Meerut University, Meerut, asked me to carry out field studies of algal flora of polluted waters around Delhi (Bahadurgarh and Mohan Nagar) as partial requirement for M.Sc. Degree (Botany). He also introduced to me the vivid spectra of flora and fauna of the Gujarat Coast in the educational tour to Dwarka, Okha and Porbandar in January 1974. I pay my tributes to him for inculcating interest in me about now what has become wetland ecology. Prof. C.K. Varshney, School of Environmental Sciences, Jawaharlal Nehru University, New Delhi moulded my thinking further towards wetlands while teaching Aquatic Ecology during my M. Phil. (Environmental Science). He has also provided valuable suggestions during the course of present work. I feel highly obliged to him. Finally, Dr. Baldev Sahai, Visiting Professor, School of Planning, Ahmedabad and former Dy. Director (RS), Space Applications Centre (ISRO), Ahmedabad reposed faith in me and provided the opportunity to carry out ‘Nation-wide Wetland Mapping’ Project. I wish to express my gratitude to him.

I express my sincere thanks to Dr. T.S. Singh and Shri T.V.R. Murthy for their help in data analysis and discussions during the present work. Suggestions and help from my colleagues, especially Dr. S.S. Pokharna, Dr (Ms) Anjali Bahuguna, Dr. M.V. Muley, Dr. A. Narain, Dr. S.R. Nayak, Shri P.S. Thakkar, Shri Arun Sharma, Ms. Beena, Shri N.S. Mehta, Dr. V.K. Shrivastava, Shri R.P. Dubey and Shri M.H. Kalubarme are also acknowledged gratefully. I am also thankful to Dr. K.G. Saxena, Associate Professor, School of Environmental Sciences, Jawaharlal Nehru University, New Delhi for discussions and suggestions. Thanks are also due to Shri R.M. Pandeya, Manager, Remote Sensing Applications Facility and his staff especially, Shri K.H. Bhardia, Shri K.M. Bhavsar, Shri R.K. Dave, Shri M.K. Bamania and Shri N.P. Pandya for cartographic, photographic and reprographic support.
I am highly indebted to my parents and my brothers Krishan (late), Jogender and Lokesh for their moral and financial support during my educational career. They have also been a source of inspiration in my life. But for the encouragement, perseverance and moral support of my wife Pratima, daughter Meghna and son Mayank it would have been difficult for me to complete the work. I am highly appreciative of their patience and forbearance.

(J.K. Garg)
