I express my deep sense of gratitude to Lord GANESHA with whose “wish” and blessings this research work has been possible. 

“Guru brahma guru Vishnu gurur devo maheshwar
guru sakshat parn brahma tasmai shri guruve namah”.

The words will never be sufficient to express my indebtedness to Prof. Dr. O. P. Saxena, my guide and formerly Head of Botany Department, Gujarat University for his constant inspiration, encouragement and masterly guidance, devotion and invaluable advices during the course of the present investigation.

I am also thankful to Prof. Dr. Y. T. Jasrai, Head of Botany Department, Gujarat University for providing me various facilities in the Department.

I am grateful to all faculty members Prof. Ms Alka. V. Vyas, Formerly Head of Botany Department, Prof. Archana. U. Mankad and Dr. Hitesh Solanka for providing healthy atmosphere in the Department. I am also thankful to Dr. Himanshu Pandya for his timely help in my research work. I also thankful to my uncles Prof. Dr. Bhrugu. D. Bhatt, Retd. Prof. & Head, Department of Agricultural Economics, Anand Agricultural University, Anand, and Prof. Dr. Shailesh K. Mehta, Head of Botany Department, Sir P. P. Institute of Science, Bhavnagar for encouragement, suggestions and help time to time in my work.

I wish to express my sense of gratitude and indebtedness to Dr. T. K. Jambukia, Associate Professor, and Dr. G. S. Patel, Senior Research Assistant, Plant Physiology Department, CPCA, Sardar Krushi Nagar, Dantwada for their academic advice in collection of data on photosynthesis parameters and timely facilitates to carry out the research work and providing me field and other instrument for the work. I am also thankful to Prof. R. S. Chauhan, Head of Botany and Prof. M. P. Saiyad, Head of Plant Breeding and Genetics, CPCA, Sardar krushi Nagar, Dantwada.

I am very much thankful to Dr. Sudhir K. Dixit, Dean Agriculture information technology and Prof. & Head, Department of Agricultural statistics, Anand Agricultural Univesity, Anand, for
providing computer laboratory facilities, guidance and encouragement. I am also thankful to Prof. Vijay Darji, Assistant professor, Department of Agricultural statistics, for statistical analysis of data, support during statistical analysis and time to time help during my data analysis.

I acknowledge the help of Gujarat State Seed Corporation for providing required quality of all types of seed materials. I would like to thank members of IARI library, New Delhi for providing good support during my literature survey and INFLIBNET Ahmedabad.

I will always remain grateful to Shri. Ganpatbhai Malubhai Patel, for not only providing his valuable plot of agricultural land to carry out my research work in natural field conditions but also providing all necessary help and whole hearted support to cultivate the crop. The love and affections showered by his entire family members, Mr. Malu dada, Mrs. Godavari ba and Mrs. Labhu masi will be a memorable experience.

I am thankful to my seniors and friend, Dhaval Vyas, for encouragement, Dr. Monika Christian for encouraging me throughout the work and Dr. Chitra Shukla for always helping in experimentation and giving suggestion during my whole research work.

I would like to thank my colleagues and friends, Avani Bhatt for her support, help and courage during experiment, and Zankhana Rathod for her cooperation during my work and many good ideas for my work. I thank to Mr. Santhosh Singh always for being helpful in my work. I would like thank to my juniors Joyce Sacha, Abha Jain, Anamika Bhandari and Kalpesh Raval for their support and keeping healthy, helpful and enthusiastic atmosphere.

My best friends and well wishers, Smt. Snehal Christian and Late Avanika Patel and for encouragement; they always inspired me for better performance, and sharing my joys and sorrows.

I find no words, rather words would fail to express how, I am blessed and helped by my parents, Mr. Anil Mehta and Mrs. Kaplana Mehta. I sincerely and deeply express my gratitude to my parents for their constant inspiration, encouragement, love towards me and for moral support during my entire research work. They always encouraged me for better performance and higher studies. I am grateful to my younger brother Mr. Sandip Mehta for his constant
encouragement and good ideas during compilation of this research work as well as support and help during entire work.

I owe my special work of thanks to my dear fiancé Mr. Kedar Shukla, for his motivation, encouragement, patience, love and suggestion with his strong desire to complete this work, which raised my morale high and made each and every puzzle simple and work enjoyable for me.

I am fortunate enough to have blessings of my father and mother in laws (Late Shri Narendra Shukla and Hemlata Shukla) for loving and caring grooming of my grand father Rameshchandra Mehta.

Lastly I am thankful to all those who helped my directly or indirectly in the successful of this completing work.
