ACKNOWLEDGMENT

I take this opportunity to express my gratitude to Shri Ishvarbhai J. Patel, Vice-Chancellor, Gujarat University for his keen interest in experimental work and for providing facilities.

I express my sincere thanks to Professor J.J. Chinoy, M.Sc.,Ph.D.,D.I.C., F.R.A., F.N.A.Sc., Botany Department, Gujarat University, for suggesting the problem as well as for his valuable guidance and encouragement throughout the course of my study.

I thank Dr. C.K. Shah, Reader in Botany, University School of Sciences for his helpful suggestions and critically reading the manuscript.

I am grateful to B.S. Patel (Sarpanch), Thalota; C.C. Patel, Kansarakui; P.M. Patel, Kansa; S.J. Patel, Hajipur; K.R. Patel and S.S. Patel, Sevalia and other progressive farmers of the Gujarat State who have helped me by providing facilities on their farms to make large scale trials with pretreated seeds.

My thanks are due to Dr. (Miss) P.I. Ghesani, Dr. (Miss) H.K. Shah, Dr. (Miss) Malti Kaul, Dr. H.O. Shah and Miss D.H. Mehta who have helped me in analytical work and Shri R.J. Pathak for statistical analysis of data at University Computer Section.

I thank Dr. B.S. Vaidya, Dr. (Miss) U.H. Acharya, Dr. (Mrs.) H.D. Patel, Dr. Y.D. Singh and clerical staff who directly or indirectly helped me in completing this work.

Finally, the financial assistance given by Gujarat University is gratefully acknowledged.
