ACKNOWLEDGMENT

It gives me profound pleasure to express my deep sense of gratitude to my thesis guide Dr. Ramesh K. Goyal, M.Sc. (Medical), Ph.D., F.I.C., Professor, Department of Pharmacology, L.M. College of Pharmacy, for his constant untiring guidance, invaluable suggestions, constructive criticism, encouragement and advice during the course of this work. Words would not be adequate to express the crucial nature of interactive help I have received from his learned personality. Without his help and co-operation I could perhaps not have been able to handle the subject with a clarity of mind and purpose. To work under his guidance, has been an inspiration and experience for me, to be remembered forever.

I am highly indebted to Dr. D. D. Santani, B.Pharm; M.Sc. (Medical), Ph.D., M.B.A., F.I.C., Professor and chairman, Department of Pharmacology, for his valuable suggestions, persistent encouragement, kind help and advice during crucial periods.

I take this opportunity to express my deepest gratitude to our Principal, Dr. C. J. Shishoo, B.Pharm., M.S. (Iowa), Ph.D., for the precious suggestions and continuous encouragement which lead this work to success. I also thank him for providing all the facilities required and his kind interest which made possible this work in its present form.

It gives me an immense feeling of delectation to express my gratitude to Mr. I.S. Rathod, M.Pharm., Asst. Professor, for his impeccable guidance. He was always there to help me in the critical situations. I owe a special debt of gratitude to Mr. M.T. Chabberia and Dr. K. S. Jain for their kind co-operation.

I feel a deep sense of gratitude and reverence as I acknowledge my indebtedness to Council of Scientific and Industrial Research and Human Resource Development for providing financial assistance for their respective schemes.

I also thank Cadila Pharmaceuticals and Dr. T.P. Gandhi, for providing the facilities necessary for carrying out the certain pharmacological experiments.

I also wish to acknowledge the considerable help by way of involvement from Dr. Anita Mehta, Dr. Sunita Mehta, Mr. R. V. Bhatt and Dr. Parloop Bhatt as a staff of department of pharmacology and I remain much indebted to them.
It was a great experience and pleasure to work with my colleagues Jagruti, T. Ravikumar, Shivprakash and Zeenat for their kind help and encouragement.

I whole heartedly thank Mr. Mahesh Ghasias for his invaluable, selfless and voluntary help offered during the experiments.

It gives me immense pleasure to recall the co-operation extended by my juniors V.D. Pawar and Vikas throughout the course of this work.

Tushar and Neelambhai also deserve a special vote of thanks for providing computer facilities. Mr. R.S. Kosti also deserves a special vote of thanks for his guidance for printing and designing work.

I shall forever remain grateful to my Mother-in-law and Father-in-law for granting me consent to work on this project.

It would have been difficult to complete this work without the moral support of my Parents and Sisters: Sonal, Kavita and Bhavini who gave me the spirit, enthusiasm and impetus to realise my academic objective.

I convey my heartful thanks to Ricky for his genuine interest, deep understanding and a great deal of patience that went all the way through the course of my work.

July, 1996
